

## Fiscal Estimate Narratives

DOT 7/3/2007

LRB Number	<b>07-1271/1</b>	Introduction Number	<b>AB-0356</b>	Estimate Type	<b>Original</b>
<b>Description</b> Requiring the Department of Transportation to establish rules allowing living will and health care power of attorney information to be included on driver's licenses, extending the time limit for emergency rule procedures, providing an exemption from emergency rule procedures, providing an exemption from rule-making procedures, and granting rule-making authority					

### Assumptions Used in Arriving at Fiscal Estimate

#### BILL SUMMARY

- Requires the department to provide space on the back of regular driver licenses for the license holder to write the identity of a person who has custody of their living will or is designated as their healthcare power of attorney.
- Requires that the licensee promptly cross out the identity of the individual if it is inaccurate or outdated.
- Requires DMV to provide links to the living will and healthcare power of attorney forms on its website.

#### ASSUMPTIONS

- The effective date of this provision is 5/11/08. It is assumed that DMV will be issuing licenses and identification cards compliant with the federal REAL ID Act by that date.
- REAL ID compliant licenses and ID cards will contain special security features and will be printed on special card stock. REAL ID compliant licenses and ID cards will cost \$7/card.
- Only individual's who hold a regular license as defined in s. 343.03(3)(a) may list the living will/healthcare power of attorney information.
- All license cards manufactured for DMV today include a special writable surface for the recording of anatomical gift declarations and are preprinted with the anatomical gift verbiage.
- To be able to list living will/healthcare power of attorney information the special writeable surface needs to be expanded and new verbiage needs to be added.
- Because living will/healthcare power of attorney information can only be listed on regular licenses, DMV will need to have two different kinds of cards manufactured: one for regular licenses containing the expanded writeable surface and living will/healthcare power of attorney verbiage, and one for all other licenses.
- Under REAL ID, it is assumed that all licenses and identification cards will be produced from a centralized printing facility. The facility will need to have dedicated printers loaded with each type of card, and the license printing system will need to have the capability to distinguish between regular licenses and all other licenses and identification cards so that regular licenses are printed on the correct card.
- A portion of regular licenses are currently "full" or "near-full" with information regarding their specific restrictions. The addition of the space for living will or health care power of attorney will require the issuance of an additional license card in these cases.
- DMV will stock living will and healthcare power of attorney forms at its field offices.

#### CONCLUSION

##### One-time costs:

- \$25,000 for updating the driver license/identification card template.

##### Ongoing costs:

- \$23,230 to purchase Living Will and Healthcare Power of Attorney forms from DHFS
- \$175,630 for additional REAL ID compliant cards

#### BASIS FOR CONCLUSION

##### One-time costs:

- Altering the driver license template to include space for the identity of the individual associated with the living will or healthcare power of attorney will require a \$25,000 one-time set-up fee.

##### Ongoing costs:

-DMV will stock living will and healthcare power of attorney forms at its field offices. Living will forms cost \$.07 and healthcare power of attorney forms cost \$.10. Assume that 10% of all driver license or identification card customers will be interested in obtaining the forms.

-10% of 1,366,369=136,637

-136,637\*\$.17=\$23,228.27

-3% of regular non-CDL licenses will require an additional card to be issued due to the addition of the space.

-Additional cards will cost \$7/each

-836,323 regular non-CDL licenses issued annually

-3% of 836,323=25,090

-25,090\*\$7=\$175,630

### **Long-Range Fiscal Implications**

See above.
