

Fiscal Estimate Narratives

ETF 12/20/2007

LRB Number	07-1798/1	Introduction Number	AB-0631	Estimate Type	Original
Description Maternity coverage for surrogate mothers					

Assumptions Used in Arriving at Fiscal Estimate

This bill would require the health plans administered by the Department of Employee Trust Funds to provide maternity services to surrogate mothers covered under the plans. Individuals who are covered under plans administered by ETF are currently provided medical maternity services. As such, there would be no additional costs associated with these individuals.

Costs associated with providing medical services to individuals not covered under an ETF administered health plan are not included in this estimate.

Long-Range Fiscal Implications
