Fiscal Estimate Narratives

DOT 3/15/2007

LRB Number	07-1837/1	Introduction Number	AB-0081	Estimate Type	Original
Description Building a certain vehicle weighing station in Rock County, building a certain interchange in Rock County, and creating a vehicle weighing station surcharge for size and weight violations detected at a certain vehicle weighing station in Rock County to provide funds to the town of La Prairie					

Assumptions Used in Arriving at Fiscal Estimate

This bill prohibits DOT from constructing, before January 1, 2057, any motor vehicle weighing station on the southbound lanes of I 39/I 90 in Rock County. There is no cost associated with this prohibition. There is a new weighing facility under construction (Kegonsa) in Dane County scheduled to open in April 2007. DOT is not considering a second facility on the southbound side in Rock County. Also bids were opened in March 2007 for construction of a new weighing facility on the east side of the northbound lanes of I 39/ I 90 in the Town of La Prairie in Rock County.

The bill also repeals existing statutory authority and mandate for DOT to build an interchange at the intersection of Townline Road and I 90 in Rock County under certain preconditions. There is an indeterminate cost savings associated with the repeal of this authority and mandate as the preconditions have not been met and no interchange planned.

This bill also imposes a 10 percent surcharge on all size and weight violations that are detected at a vehicle weighing facility located on the northbound lane of I 39/I 90 in Rock County and the surcharge is paid to the Town of La Prairie in Rock County.

During Calendar Year 2004, the most recent year for which data are available, the following enforcement activity was recorded for the northbound weighing facility on I 39/ I 90 Utica Safety Weight Enforcement Facility (SWEF) in the Town of Pleasant Springs, Dane County:

2,518 Motor Carrier Safety Assistance Program (MCSAP) Inspections. Trucks are inspected to detect broken or defective equipment and ensure safe operation

- 15,718 violations

- 597 citations resulting in \$119,544.20 in revenue

Size/Weight Enforcement

- \$73,270.06 in revenue

Total of \$192,814.26 in revenue at Utica SWEF for CY 2004 of which \$73,270.06 would be subject to the 10% surcharge.

Hence, there would be a surcharge of approximately \$7,300 added by the court to the size and weight forfeitures and provided to the Town of La Prairie for any weight facility established in the specified location. The present Utica scale is a minor facility. The facility was constructed in 1963. There is no running water. Utica was scheduled to be removed after being replaced with a larger facility with modern technology. The enforcement activity at an improved facility in the Town of La Prairie for which bids were opened in March 2007 would likely be greater.

There would be a one time indeterminate cost to establish and implement the new surcharge.

Long-Range Fiscal Implications

There would likely be incremental increases in the total amount of any surcharge collected and provided to the Town of La Prairie depending on the functionality and hours of operation of the safety and weight enforcement facility at the specified location in Rock County for which bids were opened in March 2007. The enforcement activity at an improved facility would likely be greater than at the sample Utica SWEF.
