Description Registration plates for vehicle transporters					

Assumptions Used in Arriving at Fiscal Estimate

PROVISIONS OF THE BILL

Under current law, a vehicle transporter is defined as a person who is in the business of transporting and delivering motor vehicles, trailers, semitrailers, or recreational vehicles, towed or under their own power, among manufacturers, branches of manufacturers, distributors, or dealers. Transporters may use special "transporter plates," which may be used on the vehicle being transported.

This bill adds that the vehicle destination may be the purchaser, in addition to manufacturer, branch of manufacturer, distributor, or dealer. The bill also adds that the vehicle origin may be any location with a destination of manufacturer, branch of manufacturer, distributor, or dealer. The bill also specifies that a transporter is a third party who has no ownership interest in the vehicle being transported.

FISCAL IMPACT

This bill would result in a few businesses applying for licensing as vehicle transporters. DMV can absorb this negligible workload increase. The bill would result in a negligible increase in Transportation Fund revenues from licensing fees received from the few businesses that apply for licensing as transporters.

Long-Range Fiscal Implications
