Assumptions Used in Arriving at Fiscal Estimate

This bill makes changes related to disclosure of information by health care providers, insurers, and governmental self-insured plans; and requiring acceptance by a health care provider of a payment amount in certain circumstances.

State Fiscal Effect: None.

Local Fiscal Effect: The department estimates that approximately 10% of the state's 426 school districts are self-insured for health care. These districts could incur costs as a result of the disclosure and coverage changes proposed under the bill, but the department does not have the information to estimate the fiscal effect on those local self-insured plans. Therefore the local fiscal effect is indeterminate.
