This estimate does not include various other costs such as jury costs, guardian ad litem costs, witness fees, rent, etc. These costs vary by county and by year and cannot be predicted with accuracy.

Pursuant to s. 785.19(5)(b), Wis. Stats., the state of Wisconsin sends block grant payments to counties to offset these costs. The average payment per branch of court in counties with more than one branch is approximately \$100,000 per year. If the total appropriation remains the same and must be divided among 248 circuit court branches (rather than the current 241), then the current county payments will be decreased slightly.

In addition, there may be additional revenue from fees, fines and forfeitures that are collected by circuit courts for state and county governments. This revenue cannot be accurately predicted.
