Assumptions Used in Arriving at Fiscal Estimate

CURRENT LAW

Two nonrefundable credits are currently available to encourage the rehabilitation of historic buildings in Wisconsin: a supplement to the federal historic rehabilitation credit for commercial properties and a state credit for non-commercial properties.

The supplement to the federal historic rehabilitation credit, equal to 5% of qualified rehabilitation expenditures, can be claimed for projects that are eligible for the federal credit to substantially rehabilitate certified historic buildings for use in a trade or business. The credit is patterned after the federal 20% credit for commercial rehabilitation of historic buildings. Claimants must submit evidence to the Department of Revenue that the rehabilitation work was approved by the Secretary of the Interior before construction began. The rehabilitation work must meet historic preservation standards and the expenditures must exceed the taxpayer's adjusted basis in the building. Unused amounts of the credit can be carried forward for up to 15 years.

The state historic rehabilitation credit is equal to 25% of qualified expenditures to substantially rehabilitate certified historic buildings for owner-occupied personal residences not used in the course of a trade or business. The rehabilitation work must meet historic preservation standards and the expenditures must exceed \$10,000. The maximum credit amount is \$10,000 (\$5,000 for married persons filing separately). Unused amounts of credit can be carried forward for up to 15 years.

DESCRIPTION OF THE BILL

Beginning in tax year 2008, the bill increases the amount of the supplemental state credit from 5% to 20% for rehabilitated property located in the state. The claimant must have approval for the rehabilitation from the State Historical Society.

Additionally, individuals who are not eligible for the federal historic rehabilitation credit because qualified rehabilitation expenditures do not satisfy the adjusted basis requirement will be allowed to claim the supplemental state credit in an amount equal to 20% of qualified expenses if the following conditions are met: 1) the qualified expenses must be at least \$10,000, 2) the project must be certified by the State Historical Society, and 3) the rehabilitated property must be located in the state. Claimants must claim the credit for the same taxable year as the credit would have been claimed for federal purposes.

If the property owner is a nonresident of Wisconsin who is not required to file an income tax return, the bill allows the owner to enter into an agreement with another person so that the other person may claim the supplemental state credit. The agreement requires approval from the Department of Revenue.

All or a portion of the supplemental credit must be paid back to the state if the property is sold or conveyed or the State Historical Society determines that the property has been altered to the extent that it does not comply with the standards for rehabilitation.

Beginning in tax year 2008, the bill also increases the state credit rate for owner-occupied residences to 30% provided that the rehabilitated property is located in the state and the claimant has approval for the rehabilitation from the State Historical Society.

FISCAL ESTIMATE

Data are not available to estimate the number of potential federal historic rehabilitation credit claimants who do not meet the adjusted basis requirement. Additionally, the credits are designed to promote historic rehabilitation, but data are also not available to estimate the increased participation that would result from increasing the credit rates. Consequently the fiscal effect of the bill is unknown.

Long-Range Fiscal Implications
