AN ACT to renumber 254.30; to amend 20.435 (1) (gm); and to create 250.041 (1) (dm), 254.115 (1) (bm) and 254.24 of the statutes; relating to: licensure and other regulation of mold assessors and mold remediators, granting rule-making authority, requiring the exercise of rule-making authority, making appropriations, and providing penalties.

Analysis by the Legislative Reference Bureau

Effective January 1, 2010, this bill establishes requirements for licensure by the Department of Health and Family Services (DHFS) of mold assessors and mold remediators for the performance of mold assessment and mold remediation, as defined in the bill. DHFS must issue biennial licenses and renewals of these licenses as mold assessors or mold remediators to individuals who submit applications, pay specified fees, and meet certain statutory requirements and DHFS rules requirements.

The bill specifies requirements for the performance of mold assessment and mold remediation, but exempts from these requirements routine cleaning and mold assessment or mold remediation activities performed by residential property owners on their residences or by maintenance staff for property owners who were not hired for mold treatment. DHFS must promulgate rules to specify, among other things, the scope of licensure activity, requirements for licensure, standards for continuing education requirements, practice standards, and information to be contained in written reports that mold assessors must provide to persons for whom they perform...
services. Further, the bill requires DHFS, among other things, to develop and administer examinations for licensure, maintain a publicly accessible registry of licensed mold assessors and mold remediators, and periodically conduct inspections. Annually, beginning January 1, 2011, DHFS must submit a report to the legislature and the governor specifying the number of current licenses, measures taken by DHFS to disseminate information about licensees, and mold assessment and mold remediation education and research conducted in the previous year and any proposed by DHFS in the ensuing year.

The bill specifically prohibits certain actions by mold assessors, mold remediators, and employers or contractors of mold assessors and mold remediators, including offering compensation, inducement, or reward for the referral of business, and prohibits performance after license expiration of a mold assessment or mold remediation activity that requires licensure. DHFS must investigate complaints concerning the manner in which a mold assessment or mold remediation was conducted or concerning licensure of a mold assessor or mold remediator. Lastly, the bill specifies disciplinary actions for violations, including assessments by DHFS of costs of investigations, imposition of forfeitures, and cease and desist orders.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
