### ***Analysis by the Legislative Reference Bureau***

Under current law, a woman upon whom an abortion is to be performed or induced must give voluntary and informed written consent to the abortion. Consent is voluntary only if it is given freely and without coercion. This bill requires that the physician who is to perform or induce the abortion determine whether or not the woman's consent is, in fact, voluntary. If the physician has reason to suspect that the woman is in danger of being physically harmed by anyone who is coercing the woman to consent to an abortion against her will, the physician must inform the woman of services for victims or individuals at risk of domestic abuse and provide her with private access to a telephone if she states that she wishes to call for assistance.

Currently, a woman's consent to an abortion is informed only if, at least 24 hours before the abortion is performed or induced, the physician or another qualified physician has in person orally provided the woman with certain information. If the pregnancy is the result of sexual assault or incest, the 24-hour period, but not the provision of information, may be waived or reduced under certain circumstances. This bill requires that the physician or other qualified physician inform the woman that she has a right to refuse to consent to an abortion, that her consent is not voluntary if anyone is coercing her to consent to an abortion against her will, and that

**ASSEMBLY BILL 427**

it is unlawful for the physician to perform or induce the abortion without her voluntary consent.

Currently, a woman's consent to an abortion is informed only if, at least 24 hours before the abortion is performed or induced, the physician, a qualified person assisting the physician, or another qualified physician has in person orally provided the woman with certain information. If the pregnancy is the result of sexual assault or incest, the 24-hour period, but not the provision of information, may be waived or reduced under certain circumstances. This bill requires that the physician, qualified person assisting the physician, or other qualified physician inform the woman, in person, that certain printed materials that are published and distributed by the Department of Health and Family Services (DHFS) and that must be given to the woman contain information on services available for victims or individuals at risk of domestic abuse. Additionally, the bill requires DHFS, in publishing the materials, to include information on services in the state that are available for victims or individuals at risk of domestic abuse.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
