AN ACT to renumber and amend 27.01 (15) (b); and to create 27.01 (15) (b) 2. of the statutes; relating to: electric receptacles maintained by the Department of Natural Resources at state park campsites.

Analysis by the Legislative Reference Bureau

Under current law, the number of state park campsites that have electric receptacles maintained by the Department of Natural Resources may not be more than 25 percent of all state park campsites. This bill increases this percentage to 30 percent. Also, the bill limits the number of campsites in any one state park that may have electric receptacles to 50 percent.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
