2 287.23 (5b) (intro.) and 289.645 (3); and to create 287.23 (3) (b) 2. and 287.23
3 (5c) of the statutes; relating to: increasing the recycling fee imposed on the
4 disposal of solid waste, the program of financial assistance for local recycling
5 programs, and making an appropriation.

Analysis by the Legislative Reference Bureau

Current law imposes a fee of $3 per ton on solid waste, other than certain kinds
of high-volume industrial waste, disposed of at a landfill or other waste disposal
facility. This type of fee is often called a tipping fee. The recycling fee is deposited
into the recycling fund. Under current law, the Department of Natural Resources
administers a program that provides financial assistance to local units of
government that operate recycling programs. In each fiscal year, a local unit of
government generally receives the same proportion of the total available funding
that it received in 1999, but not more than its eligible costs.

This bill increases the recycling fee to $10 per ton on April 1, 2008. The bill also
increases funding by $48,000,000 in fiscal year 2008-09 for the program that
provides financial assistance to local governmental units that operate recycling
programs. Under this bill, in 2009 each local governmental unit receives at least a
75 percent increase in financial assistance, even if the increased amount exceeds the
eligible costs of its recycling program.
For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
