February 13, 2008 – Introduced by Representatives HINES, BERCEAU, BIES, HAHN, HINTZ, KREUSER, MASON, A. OTT, PARISI, STASKUNAS, TOWNSEND, TURNER and VAN ROY, cosponsored by Senators LEHMAN, DARLING, MILLER, OLSEN and RISSER. Referred to Committee on Public Health.

AN ACT to amend 15.08 (1m) (b); and to create 15.405 (7e), 440.08 (2) (a) 39m., 440.08 (2) (a) 64g., 448.695 (3) and chapter 461 of the statutes; relating to: licenses and limited X−ray machine operator permits to engage in the practice of radiography, creating a radiography examining board, granting rule−making authority, requiring the exercise of rule−making authority, and providing a penalty.

Analysis by the Legislative Reference Bureau

This bill regulates the practice of radiography, defined in the bill as the imaging of anatomical structures by application of X−rays to the human body using knowledge in certain technical fields for the purpose of medical diagnosis. Under the bill, no person may practice radiography except a person who holds a license or who holds a limited X−ray machine operator permit (limited permit). A limited permit authorizes the holder to perform radiography of one or more of four portions of the body specified in the bill. A license or limited permit is granted by a seven−member Radiography Examining Board (board), created in the bill. The license or limited permit requirement does not apply to a physician, chiropractor, dentist, dental hygienist, or podiatrist, to a person who is directly supervised by a chiropractor and who has completed a training program approved by the Chiropractic Examining Board, or to a person who is directly supervised by a podiatrist and who has completed a training program approved by the Podiatrists Affiliated Credentialing...
Board. The bill prohibits the use of diagnostic X-ray equipment on humans for diagnostic purposes without a prescription or order by a physician, dentist, podiatrist, chiropractor, advanced practice nurse prescriber, or physician assistant.

Under the bill, the board may grant a license or limited permit to a person who is at least 18 years of age, holds a high school diploma or equivalent, pays a fee, passes an examination, and completes specified educational requirements. To obtain a license, a person must complete an approved course of study in radiography. To obtain a limited permit, a person must complete an appropriate course of study.

The bill directs the board to promulgate rules that establish standards for courses of study, for examinations, and for continuing education. The board may promulgate a code of ethics for licensees and limited permit holders, and may deny, limit, revoke, or suspend a license or limited permit held by persons who commit specified infractions. The bill also provides for licensure or issuance of a limited permit to a person currently practicing radiography who passes an examination administered by the board.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
