Analysis by the Legislative Reference Bureau

This bill appropriates funds to the Department of Public Instruction in order to enable school districts to provide services to homeless pupils. Under the bill, each school district annually receives $100 for each homeless pupil enrolled in the school district. The school district must use the funds to provide services to homeless pupils in order to enable them to attend and succeed in school, and to develop and implement professional development programs for school district personnel to heighten their awareness of, and capacity to respond to, problems in the education of homeless pupils.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
