AN ACT to amend 71.05 (6) (a) 15.; and to create 71.07 (3x), 71.10 (4) (cn) and 560.22 of the statutes; relating to: creating an emerging target investment tax credit and granting rule-making authority.

Analysis by the Legislative Reference Bureau

This bill creates an income tax credit for an amount equal to 15 percent of the investment a person makes in a minority business, service-disabled veteran-owned business, or woman-owned business. The maximum amount that a person may invest and use as the basis for a credit is $500,000 for each investment made directly in the business. The maximum amount of the credits that may be claimed for all claimants and all taxable years is $20,000,000.

Under the bill, the Department of Commerce certifies a person who is eligible for the tax credit, and certifies the amount of the credit for which the person is eligible. A person is eligible for certification only if the person will make an investment in a business engaged in manufacturing, financial services, business services, consumer products and services, media, entertainment, or technology.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
