AN ACT to renumber 49.147 (5m) (a) 1., 49.147 (5m) (a) 2. and 49.147 (5m) (a) 3.; to renumber and amend 49.147 (5m) (a) (intro.) and 49.147 (5m) (a) 4.; to amend 49.147 (5m) (bL); and to create 49.147 (5m) (am) (intro.) and 49.147 (5m) (ar) of the statutes; relating to: technical college attendance under Wisconsin Works.

Analysis by the Legislative Reference Bureau

Among the types of assistance that the Wisconsin Works (W−2) program under current law provides are work experience and benefits for low−income custodial parents who are at least 18 years old. W−2 has three categories of employment positions: 1) trial jobs, under which an individual receives at least minimum wage from an employer and the W−2 agency pays a wage subsidy of up to $300 per month to the employer; 2) community service jobs, under which an individual works in a project that serves a useful public purpose or that will generate revenue to wholly or partially offset the project’s cost and receives a monthly grant of up to $673 from the W−2 agency; and 3) transitional placements, under which an individual participates in work activities in a community rehabilitation program, a job similar to a community service job, or volunteer activities and receives a monthly grant of up to $628 from the W−2 agency.

Under current law, an individual in a community service job placement or a transitional placement may participate in a technical college education program as part of that placement. The criteria are that: 1) the W−2 agency determines that the
program is likely to lead to employment; 2) the participant maintains full-time status in the program and regularly attends classes; 3) the participant maintains a grade point average of at least 2.0; and 4) the participant is employed or engages in work in the community service job placement or transitional placement for 25 hours per week in addition to attendance at the technical college education program. Participation in a technical college education program is limited to program completion or two years, whichever occurs first.

This bill provides an additional technical college education program for individuals in community service job or transitional placements. For the new program under the bill, a participant must satisfy the same attendance and grade point average requirements that are required for the technical college education program in current law. In addition, the W-2 agency must have approved the technical college education program, the participant must have been accepted into the program, and an employer that has been approved by the W-2 agency must have agreed to employ the participant upon successful completion of the program. A participant in the new technical college education program may not be required to work in addition to attendance at the program, and participation in the new technical college education program is limited to program completion or 12 months, whichever occurs first. Any participant may participate in only one of the two technical college education programs.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
