AN ACT to amend 38.28 (1m) (a) 1.; and to create 20.292 (1) (cr) and 38.31 of the statutes; relating to: grants to technical college districts to reduce unemployment, granting rule-making authority, and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill directs the Technical College System (WTCS) Board to award grants to technical college districts for programs that assist in reducing unemployment. To be eligible for a grant, a technical college district must include a labor surplus area, as designated by the federal Department of Labor. Under the bill, grants are available for three specified purposes:

1. To recruit, enroll, instruct, provide support services to, and pay the tuition and fees of dislocated workers who reside in a labor surplus area and enroll in the district. A dislocated worker is a person who has been laid off or terminated from employment and meets certain additional criteria; a person who was self-employed but is unemployed as a result of economic conditions or natural disasters; or a displaced homemaker.

2. To recruit, enroll, instruct, and provide services to adults who reside in a labor surplus area and enroll in the district in a program leading to a certificate of general educational development (GED) or a high school equivalency diploma.

3. To expand existing capacity or create capacity in district programs for which there are student waiting lists or that address projected workforce needs in the district.
The bill directs the WTCS Board to give preference in awarding grants to programs that serve persons who reside in areas with the highest unemployment rates. The board must also submit annual reports to the governor and the legislature regarding the programs that have been awarded grants.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
