AN ACT to repeal 49.47 (9m), 146.91 (2) (c) and 146.91 (5); to amend 49.47 (4)
(b) (intro.), 49.47 (4) (c) 1. and 49.496 (3) (a) (intro.); to repeal and recreate
49.45 (31); and to create 601.415 (8) of the statutes; relating to: a Long−Term Care Partnership Program.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Health and Family Services (DHFS) administers the Medical Assistance (MA) program, which provides federal and state moneys to pay for health care and long−term care services provided to MA recipients. MA recipients are, generally, low−income, elderly, or disabled persons who meet other specific eligibility requirements. To be eligible for long−term care services under MA, an individual must meet certain very low income and resource requirements, and may have to pay for his or her own long−term care until those income and resource requirements are met. In addition, DHFS may recover from a decedent’s estate the amount of MA paid on behalf of the decedent for long−term care.

Under the State Long−Term Care Partnership Program under federal law, a state may seek approval of an amendment to its state MA plan that would allow it to disregard an amount equal to the amount of qualifying long−term care insurance payments received by an individual when the state is calculating the individual’s income and resources for purposes of determining MA eligibility, and when the state is determining the amount that may be recovered from the deceased individual’s estate for long−term care services provided under MA. For the long−term care insurance to qualify: 1) the individual must have been a state resident when
coverage first became effective; 2) the coverage must not have been effective before the date of the state MA plan amendment; 3) the long-term care insurance policy must meet the definition under federal law, must meet the long-term care insurance model regulations and the requirements of the long-term care insurance model act promulgated by the National Association of Insurance Commissioners, and must provide specified inflation protection depending upon the age of the insured individual when coverage first began; and 4) the Commissioner of Insurance must certify that the policy meets all of those requirements. DHFS and the Office of the Commissioner of Insurance must work together to develop a training program for insurance agents who sell long-term care insurance to ensure that the agents understand long-term care insurance and how it relates to other public and private coverage of long-term care, including MA. In addition, an insurer that issues a qualifying long-term care insurance policy must report to the secretary of the federal Department of Health and Human Services (DHHS) regarding when benefits are paid, the amount of the benefits paid, termination of the policy, and any other information required by the secretary.

This bill requires DHFS to submit to the secretary of DHHS an amendment to the state’s MA plan that satisfies the requirements of the State Long-Term Care Partnership Program under federal law. If the amendment is approved, DHFS must disregard, for purposes of MA eligibility and estate recovery, the amount of qualifying long-term care insurance payments made to an individual who receives MA for long-term care.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
