Referred to Committee on Agriculture and Higher Education.

AN ACT to amend 96.17 (1); and to create 96.11 (3) of the statutes; relating to:

an assessment on growers that sell corn.

Analysis by the Legislative Reference Bureau

Current law authorizes the creation of marketing orders for agricultural commodities, such as fruit, grain, and milk. A marketing order is issued by the secretary of agriculture, trade and consumer protection and takes effect upon the approval of producers of the agricultural commodity through a referendum. A marketing order may provide for market research and development, for research to improve production, and for programs to educate producers of the agricultural commodity or the public. Every marketing order must establish a marketing board, which carries out the activities under the marketing order. The activities of a marketing board are financed with assessments paid by producers. Under current law, a marketing order may allow a producer that does not favor the activities under the marketing order to obtain a rebate of the assessments paid by the producer. There is currently a marketing order for corn (other than sweet corn). The current marketing order for corn provides for an assessment of 0.1 cent per bushel and allows growers to obtain rebates.

This bill establishes an additional assessment of 0.4 cents per bushel that must be paid by corn growers who are required to pay the assessment under the marketing order for corn. The bill requires the marketing board for corn, known as the Corn Promotion Board, to use the proceeds of this assessment for the purposes of the marketing order. The bill allows a producer to obtain a rebate of the assessment imposed under the bill. The bill specifies that the 0.4 cent per bushel assessment
ends on June 30, 2012, if corn producers approve a referendum to end the assessment.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
