Analysis by the Legislative Reference Bureau

Insurance security fund

The bill makes various changes to the insurance security fund provisions of the
statutes. In general, the insurance security fund (fund), which is created as a
nonprofit organization and funded through assessments paid by insurers covered
under the fund, pays claims made against insolvent insurers.

Under current law, the board of directors of the fund (board) includes between
7 and 14 members, consisting of the state attorney general, the state treasurer, the
commissioner, and representatives of insurers who are chosen under procedures
specified by the commissioner by administrative rule. The chairperson of the board
is elected by members of the board under a rule promulgated by the commissioner.
Under the bill, the board consists of the state attorney general, the state treasurer,
the commissioner, and between nine and 11 representatives of insurers who are
appointed by the commissioner for three–year terms; a member who is an insurer
representative may designate an alternate representative, who has all of the powers
and responsibilities of the designating representative, to represent the insurer at
any meeting of the board; and the chairperson of the board is elected annually by the
members at the first meeting after June 1.

Under current law, generally, the fund has no liability for payment of a claim
that is not filed by the date set by the liquidator or court. The bill provides that the
fund is not liable for any claim that is filed after 18 months after the order of
liquidation is entered if no date for filing is set by the liquidator or court. The bill
also specifies the circumstances under which an insurer, reinsurer, insurance pool,
or underwriting association that has paid a claim for health care costs and is
subrogated to an insurer in liquidation may assert a claim for reimbursement
against the fund.

Under current law, the fund is not responsible for paying benefits under a life
or disability insurance policy or an annuity contract to the extent that the rate of
interest on which the benefits are based, or the interest rate, crediting rate, or similar
factor determined by use of an index, exceeds the smaller of the minimum
guaranteed rate specified in the contract or a rate of interest determined in relation
to Moody’s corporate bond yield average. The bill changes this so that the fund’s
responsibility for payment is based only on whether the interest rate on which the
benefits are based exceeds the applicable Moody’s corporate bond yield average.
Under current law, assessments paid by insurers to support the fund are based on premium written in this state for the year preceding either the year the liquidation order was entered or the year in which the assessment is authorized by the board, depending on when the assessment is authorized. This bill retains that provision for all types of insurance except life or disability insurance policies and annuity contracts. For those types of insurance, assessments are based on average annual premium received in this state for the three most recent years preceding the year the liquidation order was entered. In addition, the bill changes the maximum amount that an insurer may be assessed in any calendar year. Under current law, the maximum assessment amount is 2 percent of average annual premium received in this state during the three calendar years preceding the year in which the liquidation order is entered. The bill changes the maximum assessment amount to 2 percent of the insurer’s assessable premiums on which an insurer’s assessment is based.

Current law provides a number of types of insurance or insurance-like products or arrangements that are not covered by the fund, including a policy issued by an insurer to the Department of Health and Family Services (DHFS) under a specific state statute to provide prepaid health care to medical assistance recipients. The bill expands that to include not only policies but also contracts between an insurer and DHFS or other entities under any state statute to provide prepaid health care to medical assistance recipients.

**Investments of the State of Wisconsin Investment Board**

Under current law, the State of Wisconsin Investment Board (SWIB) has authority to invest and manage certain assets, including moneys of the local government property insurance fund (LGPIF). As with most of the funds under SWIB’s investment control, LGPIF is invested as part of the state investment fund, which is comprised of fixed income investments with a short-term investment objective. In contrast, SWIB has broader investment authority over assets of the state life fund, the veterans trust fund, the injured patients and families compensation fund, and the core retirement investment trust (containing most Wisconsin Retirement System contributions), which may be invested with a longer-term investment objective in specific classes of investments enumerated by statute (authorized list).

This bill removes LGPIF from the state investment fund and allows SWIB to invest LGPIF in an authorized list of investments that includes both fixed income and equity securities.

**Miscellaneous insurance provisions**

The bill makes various other insurance-related changes. The bill:

1. Prohibits a lender with a security interest in real property from requiring the borrower to insure the real property against risks to improvements in an amount that exceeds the lesser of the replacement value or market value of the improvements.

2. Authorizes an insurer that provides group or blanket insurance to make the certificates available to certificate holders electronically as an alternative to
SENATE BILL 386

delivering or mailing the certificates to the policyholder. However, any certificate holder may receive a paper copy of the certificate upon request.

3. Makes the definition of a late enrollee, for purposes of group health benefit plan requirements, consistent with the federal Health Insurance Portability and Accountability Act of 1996. The definition of a late enrollee affects the length of time that may be required for an affiliation period and for a preexisting condition exclusion.

4. Clarifies that the level of investment allowed in an insurance corporation subsidiary applies to all subsidiaries of the insurance corporation in the aggregate, not to each separate subsidiary.

5. Provides that the only remedy for recovering a license fee or assessment paid by an insurer is to commence an action in the circuit court for Dane County.

6. Specifies requirements for property that may be covered under the local government property insurance fund that is not actually owned by a local governmental unit.

7. Provides that the commissioner of insurance (commissioner) must consult with the appropriate advisory council or committee designated by the commissioner, rather than the Life and Disability Advisory Council, when developing a uniform employee application form for use by small employer insurers.

8. Provides some clarifications with respect to investigation and examination information that the Office of the Commissioner of Insurance has a privilege to refuse to disclose.

9. Specifies that coverage that is provided to an employer or plan sponsor relating to claims incurred under the employer’s or plan sponsor’s self-funded employee welfare benefit plan (self-funded, or self-insured, health care plan) is “insurance” for purposes of the insurance statutes.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
