SENATE BILL 438

77.82 (2m) (ac), 77.82 (3) (am) and 77.88 (5g) of the statutes; relating to: petitions and management plans for the designation of managed forest land, transferrals of ownership of managed forest land, establishing stumpage values and estimating withdrawal taxes under the managed forest land program, signatures and authentication requirements for orders under the forest croplands program, granting rule-making authority, and making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Natural Resources (DNR) administers the managed forest land (MFL) program and a similar program called the forest croplands program. The MFL program exempts an owner of land that is designated MFL from payment of municipal property taxes on the land in exchange for a lower payment per acre. In exchange, the owner must comply with certain forestry practices and must allow the public on the land under certain circumstances unless the landowner elects to pay an extra amount per acre to keep a limited number of acres closed. In addition, an owner of MFL must pay a withdrawal tax when the owner withdraws the land from the program before the order designating the land as MFL expires. Orders are for 25 or 50 years. This bill makes various changes to the MFL program, including the following:

1. The bill makes a terminology change by substituting the words “applicant” and “application” for “petitioner” and “petition” in the subchapter related to the MFL program. This change is nonsubstantive.

2. The bill changes the dates before which DNR must act on applications under the MFL program and changes the deadline for owners to file applications to renew MFL orders.

3. The bill requires that a forestry management plan for the MFL accompany the application and eliminates the requirement that DNR prepare the plan upon the request of the applying landowner. Under the bill, DNR must prepare the plan only if DNR determines that the applicant is not able to have a proposed management plan prepared by a certified independent plan writer. The bill requires DNR to promulgate rules establishing the criteria for when DNR will prepare the plan.

4. The bill requires DNR to prepare an estimate of the withdrawal tax that would be due if the MFL is withdrawn upon request of DNR or an MFL landowner. Under the bill, the Department of Revenue assists with the preparation of these estimates.

5. The bill eliminates the requirement that the stumpage value that is used to determine the amount of yield taxes and withdrawal taxes under the MFL program be established by rule.
SENATE BILL 438

6. The bill clarifies that when MFL is transferred to another owner, the person purchasing or otherwise receiving the land pays the transfer fee.

7. The bill allows facsimile signatures and exempts documents from register of deeds authentication requirements under the forest croplands program. These provisions exist for the MFL program under current law.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
