Analysis by the Legislative Reference Bureau

This bill generally prohibits a person operating a school bus or another vehicle transporting pupils from using a cellular telephone or other wireless telecommunications device while the school bus or other vehicle is on the roadway or loading or unloading passengers. This prohibition does not apply if a cellular telephone, or a wireless telecommunications device capable of real-time voice communications, is used to make an emergency “911” telephone call or communicate with specified emergency responders or service providers regarding an emergency situation. A person who violates this prohibition must forfeit $200 for the first offense and $500 for each subsequent offense occurring within two years. In addition, for the second or subsequent offense within two years, the Department of Transportation must cancel the “S” endorsement, authorizing the operation of school buses, to the person’s operator’s license and the person may not reinstate the “S” endorsement to his or her operator’s license for six months.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
SENATE BILL 442

Upon cancellation of an operator’s license under this subdivision, the person may obtain from the department, without charge, an operator’s license that is not endorsed for the operation of school buses and, after 6 months from the date of the license cancellation, may apply for reinstatement of the endorsement authorizing the operation of school buses.
