moneys from the hospital assessment fund to the injured patients and families
compensation fund, requiring the Department of Health and Family Services
annually to submit a report for review by the Joint Committee on Finance, and
making appropriations.

Analysis by the Legislative Reference Bureau

Under current federal and state law, Medical Assistance (MA) is a jointly funded, federal–state program that the Department of Health and Family Services (DHFS) administers to provide health care services to eligible individuals with very low incomes and few assets; the state share of MA is paid from a combination of general purpose revenues, program revenues from hospital assessments, and segregated funds under the MA trust fund. Under a waiver of federal Medicaid laws from the federal Department of Health and Human Services, DHFS also administers under MA the Badger Care Health Care Program (Badger Care). Badger Care provides health care coverage to certain low-income families and to certain low-income children who do not reside with a parent.

Under current law, DHFS annually assesses hospitals a total of $1,500,000, in proportion to each hospital’s respective gross private-pay patient revenues during the hospital’s most recent fiscal year. Moneys from the assessments are credited to a general program revenue appropriation account, from which is paid a portion of MA program benefits, certain long-term care MA pilot projects, and services under the Family Care Program.

Currently, under MA, DHFS must distribute not more than $2,256,000 in each fiscal year to provide supplemental funds to rural hospitals and to critical access hospitals that have a high utilization of inpatient services by patients whose care is provided from governmental sources.

This bill eliminates the current hospital assessment and the associated program revenue appropriation account and, instead, authorizes DHFS to levy, enforce, and collect an annual assessment on the gross patient revenue of hospitals, payable quarterly, based on claims information collected by an entity from hospitals under the laws relating to health care information or based on any other source that is approved in the state Medicaid plan. Under the bill, the assessments are first due before September 30, 2008. DHFS must verify the amount of each hospital’s gross patient revenue and determine the amount of the assessment owed by each hospital based on a uniform rate applicable to total gross patient revenue that DHFS estimates will yield $210,458,300 in fiscal year 2008–09. DHFS may allow delayed payment by hospitals that are unable to pay by the quarterly assessment dates; a DHFS determination that a hospital may not make a delayed payment is not subject to an administrative appeal process. If DHFS determines that any portion of the revenue needed to provide MA payment increases for inpatient or outpatient hospital services as fee for service or through health maintenance organizations
SENATE BILL 490

(HMOs) is not eligible for the federal Medicaid share, DHFS must refund that amount to hospitals in proportion to each hospital’s assessment payment. The assessments must be deposited into the hospital assessment fund (a separate, nonlapsable trust fund, as created in the bill).

Moneys from the hospital assessments deposited in the hospital assessment fund are, under the bill, appropriated to provide the MA nonfederal share for increased payments, in excess of the aggregate inpatient and outpatient MA hospital payment rates in effect in fiscal year 2007–08, and refunds to hospitals for services provided under MA and Badger Care. They are also appropriated to increase (together with federal Medicaid matching moneys) the amount of moneys DHFS must distribute to rural hospitals for fiscal year 2008–09 and each fiscal year thereafter, by $3,000,000. Additionally, they are appropriated to provide $1,500,000 in each fiscal year for a portion of MA program benefits. Lastly, they are transferred from the hospital assessment fund to the injured patients and families compensation fund in the amounts of $60,000,000 in fiscal years 2008–09, $65,000,000 in fiscal year 2009–10 and 2010–11, and $10,000,000 in fiscal year 2011–12. The Joint Committee on Finance of the legislature (JCF) may not transfer moneys from the hospital assessment fund.

The bill requires HMOs that provide services under MA and Badger Care to make monthly payments to hospitals in amounts equivalent to any increase in the capitated rate that DHFS pays HMOs for serving MA and Badger Care recipients, which increase is intended to cover hospital services and is associated with the hospital assessment. The bill requires DHFS to determine monthly amounts, specific to each HMO and hospital, that HMOs must pay hospitals based on data that DHFS uses to calculate the capitated rates DHFS pays HMOs as well as encounter data provided by the HMOs. DHFS must redetermine the amounts at least once annually and must publicly disclose the methodology used to calculate the amounts. The bill requires that each HMO and hospital reconcile the monthly HMO payments to the hospital with actual utilization of inpatient and outpatient services by MA and Badger Care recipients every six months, and that the HMO or hospital, whichever is applicable, pay the other any difference within 90 days. If an HMO and hospital cannot reconcile the amount owed, upon the request of either the HMO or hospital, DHFS must determine the amount. The DHFS determination is subject to administrative review.

Under the bill, DHFS must report, by December 31, 2009 and by December 31 each year thereafter, to JCF all of the following information for the immediately previous state fiscal year: (1) the total amount of hospital assessments collected; (2) the total amount of assessments collected from each hospital; (3) the total amounts that DHFS determines were paid to HMOs for increased MA and Badger Care payments to hospitals; (4) the total amount of these payments made to each hospital by HMOs; (5) the total amount of these payments made to each hospital and the portion of the capitated payments made to HMOs for inpatient and outpatient hospital services from general purpose revenues; (6) the total amounts obtained under (3) and (5); and (7) the results of any audits conducted by DHFS concerning
these payments to HMOs and any actions taken by DHFS as the result of such an audit.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

The amounts shall be based on any increase in the capitated rate that the department pays a health maintenance organization, which increase is intended to cover inpatient and outpatient hospital services and which is associated with the assessment imposed on hospitals under s. 50.375. The department shall use the information that it uses to calculate the capitated rates that the department pays health maintenance organizations and encounter data that is provided by the health maintenance organizations to calculate the amounts in the schedule. The department shall disclose publicly the methodology it uses to calculate the amounts in the schedule. The department shall recalculate the amounts in the schedule at least once every 12 months.
(b) The department shall require, as a term of contracts with health maintenance organizations to provide medical assistance services or services under s. 49.665 for a capitated payment rate, that the health maintenance organization do all of the following:

3. Every 6 months, and for each hospital to which the health maintenance organization makes payments under subd. 1, compare the amount that the health maintenance organization paid the hospital under subd. 1. for the previous 6 months with the amount calculated under subd. 2. for services provided during that same period, and, if the amount under subd. 2. exceeds the amount of the payments under subd. 1., pay the hospital the difference within 90 days.

(c) If the total payments that a health maintenance organization made to a hospital under par. (b) 1. for a 6 month period exceed the amount calculated under par. (b) 2. for services provided during that same period, the hospital shall pay the health maintenance organization the difference within 90 days after the end of the 6-month period.

(d) If the department determines that a health maintenance organization has not complied with a condition under par. (b), the department shall require the health maintenance organization to comply with the condition within 15 days after the
department’s determination. The department may terminate a contract with a
health maintenance organization to provide medical assistance services or services
under s. 49.665 for a capitated payment rate for failure to comply with a condition
under par. (b). The department may audit health maintenance organizations to
determine whether they have complied with the conditions under par. (b).

(e) If a health maintenance organization and hospital cannot resolve the
amount that a health maintenance organization owes a hospital under par. (b) 3. or
that a hospital owes a health maintenance organization under par. (c), and either the
health maintenance organization or the hospital, within 6 months after the end of
the time period to which the disputed amount relates, requests that the department

SECTION 31. 49.472 (6) (b) of the statutes is amended to read:

49.472 (6) (b) If federal financial participation is available, from the
appropriation account under s. 20.435 (4) (b), (gp), or (w), or (xd), the department may

A determination by the department that a hospital may not make a delayed payment under this subsection is final and is not subject to review under ch. 227.

(3) The amount of each hospital’s assessment shall be based on the information that shall be provided to the department under s. 153.46 (5) or shall be based on any other source that is approved in the state plan for services under 42 USC 1396.

(4) The department shall verify the amount of each hospital’s gross patient revenue and shall determine the amount of the assessment owed by each hospital.
based on a uniform rate that is applicable to total gross patient revenue that the

for federal financial participation, the department will refund that amount of
revenue to hospitals in proportion to each hospital’s payment of the assessment.

(7) This section does not apply to a critical access hospital, as defined in s. 50.33
