Andrew:

I took a guess and thought that the issuance of admission receipts issued at the discounted rates to bus companies would not go through the automated statewide issuing system, or be issued by agents contracted by DNR. I made this choice because it could get complicated since there are 4 different daily rates for buses. See. s. 27.01 (7) (f) 3. and 4. and (g) 3. and 4. Also, if the bus company is buying daily receipts "in bulk", the receipts will not be able to have a date stamped on them since it is unclear when the bus company would actually use them.

Also, in light of this timing issue, do you want to a period of validity for these receipts, such as 6 months or a year?
