Assumptions Used in Arriving at Fiscal Estimate

A major impact of this law is that fourth offense OWI would become a felony. This will lead to an increase in the number of motion hearings, trials, and appeals.

In 2007 there were 1,902 fourth offense OWI cases. 1,902 cases x 6.32 hours (dif. between felony and misdemeanor) = 12,020 hours 12,020 hours divided by 1,227 = 9.80 ADAs needed.

The impact of this law change could require 9.8 ADAs Annual salary = \$47,036 Annual fringe = \$18,433 TOTAL = \$65,469 x 9.8 ADAs = \$641,596.

The figures above are based on those used in the DA workload analysis. Prosecutors believe that this bill would require more prosecutors than the figures above indicate, due to increased motion hearings and case filings associated with the bill.

Counties would face increases in jail costs.
