O-NOTE

2009 BILL

1-8-09

- 1379/11

RM NOT
RUN

SAV

Regen.

1 AN ACT *to repeal* 196.493; and *to amend* 196.491 (3) (d) (intro.) of the statutes;
2 relating to: requirements for approval of construction of nuclear power plants.

Analysis by the Legislative Reference Bureau

Under current law, a person may not construct a new power plant unless the Public Service Commission (PSC) has issued a certificate to the person. The PSC may not issue a certificate unless specified requirements are satisfied. In addition, if the proposed power plant is a nuclear power plant, current law prohibits the PSC from issuing a certificate unless the PSC finds both of the following: 1) that there is a facility with sufficient capacity to receive the spent fuel from all nuclear power plants in the state; and 2) that construction of the power plant is economically advantageous to ratepayers based on specified factors.

This bill eliminates the additional findings required under current law for a proposed nuclear power plant.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 SECTION 1. [✓] 196.491 (3) (d) (intro.) of the statutes is amended to read:
4 196.491 (3) (d) (intro.) Except as provided under par. (e) and ~~s. 196.493~~, the
5 commission shall approve an application filed under par. (a) 1. for a certificate of

BILL

1 public convenience and necessity only if the commission determines all of the
2 following:

3 **SECTION 2.** 196.493 of the statutes is repealed.

4 (END)
