Description						
Designating the bacterium Lactococcus lactis as the Wisconsin state microbe						

Assumptions Used in Arriving at Fiscal Estimate

Assembly Bill 556 would designate the bacterium Lactococcus lactis as the Wisconsin state microbe. The bill has no fiscal impact on the Department of Administration. The Legislative Reference Bureau (LRB) would be required to publish this information in the Wisconsin Blue Book. There would be set up costs associated with including this information in the next printing of the Blue Book, but those costs would likely be minimal.

Long-Range Fiscal Implications

None.
