TO 2009 ASSEMBLY BILL 620**

December 17, 2009 – Offered by Representative BENEDICT.

1 **AN ACT** *to amend* 119.04 (1); and *to create* 118.074 and 118.076 of the statutes;
2 **relating to:** physical fitness assessments, school nutrition, and granting
3 rule-making authority.

Analysis by the Legislative Reference Bureau

This substitute amendment is explained in the NOTES provided by the Joint Legislative Council in the substitute amendment.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This substitute amendment was prepared for the Joint Legislative Council's Special Committee on Performance-Based Disease Management for Large Populations.

The Department of Public Instruction (DPI) and the University of Wisconsin (UW) received a three-year grant, which ends in 2010, to administer the FitnessGram physical fitness test in middle schools that volunteer to participate. The FitnessGram is a software program which is comprised of four tests: body mass index measurement, a quasi-situps abdominal strength test, a flexibility test, and the Progressive Aerobic Cardiovascular Endurance Run (PACER). For all elements of the FitnessGram, age and gender norms have been developed and individual scores are measured against these norms. The PACER is a 20-meter shuttle run (back and forth) which is conducted in a

class-based setting in which 20–50 children can run at a time. The PACER is designed to measure aerobic capacity. The UW has found that the PACER test is a good measure of fitness and a good indicator of diabetes risk.

This substitute amendment directs public schools, charter schools, and private schools to ensure that the physical fitness of pupils in grades 3 through 12 is assessed annually and specifies that the assessment must include an evaluation of pupils' aerobic capacity. These schools are not required to assess pupils who have a disability or other condition as specified by DPI administrative rule. The results must be kept confidential but schools are required to send results to DPI and provide an individual child's results to their parent or guardian.

The national school lunch and school breakfast programs provide federal funding to schools to serve free and reduced-priced meals and snacks. In exchange for receiving federal funds, schools must serve meals and snacks that adhere to federal nutritional requirements set by the U.S. Department of Agriculture (USDA). USDA requires that school lunches must meet the applicable recommendations of the 1995 Dietary Guidelines for Americans, which recommend that no more than 30% of an individual's calories come from fat and less than 10% from saturated fat. Federal guidelines do not apply to or limit the sale of a la carte or vending machine foods sold in addition to federally funded meals and snacks.

The substitute amendment requires all public schools, charter schools, and private schools, beginning in the 2012–13 school year, to use the following requirements for foods sold outside of federally reimbursed USDA meal programs: no more than 30% of its total calories shall be from fat (except for the sale of nuts or seeds), no more than 10% of its total calories shall be from saturated fat and the consumption of whole grains, fresh fruits, and fresh vegetables is encouraged. Soft drinks may not be sold in vending machines at any time of day at school or on school grounds. During the school day until the end of the school day, only water, milk, 100% fruit juice, 100% vegetable juice, or a blend of those juices may be sold on school grounds. One-half hour after the end of the school day, soft drinks that are not sold or dispensed by a vending machine may be sold at school or on school grounds. Candy may not be sold in vending machines at any time of the day at school or on school grounds. Candy that is not sold or dispensed by a vending machine may be sold one-half hour after the end of the school day. School fund raising which involves the sale of food on or off of school grounds is encouraged to follow these requirements. Beginning on July 1, 2011, all public schools, charter schools, and private schools may not enter into, modify or renew a contract with a vending machine operator or vendor unless the terms of the contract that will be in effect on July 1, 2012, comply with the restrictions in the substitute amendment.
