1 **AN ACT** *to create* 71.07 (6f) and 71.10 (4) (ce) of the statutes; **relating to:** creating
2 a nonrefundable individual income tax credit for certain amounts relating to
3 health savings accounts that may be deducted from, or are exempt from, federal
4 income taxes.

Analysis by the Legislative Reference Bureau

Under current federal law, certain individuals may make tax-deductible contributions to health savings accounts (HSAs) and withdraw the money tax-free when needed to cover routine and preventive medical care.

Under this bill, an individual who makes contributions to such an HSA may claim a nonrefundable income tax credit for 6.5 percent of the allowable amount that the individual claims as a federal tax deduction for a contribution to an HSA or 6.5 percent of the federal tax-exempt earnings relating to an HSA, or both. The credit may not be claimed, however, by a single person, head of household, or married person who files a separate return if the person's Wisconsin adjusted gross income (AGI) exceeds 500 percent of the federal poverty level, or AGI in excess of 500 percent of the federal poverty level in the case of a married couple who files a joint return. The bill first applies to taxable years beginning on January 1, 2011.
