Subject: LRB 4210/2

Hi Robin,

Rep. Seidel is going to be introducing an Assembly companion to Senator Miller's LRB 4210/2: providing assistance to individuals under age 60 to obtain and maintain health care.

Could you please send an Assembly LRB to us? Also if it's possible for you to give me the assigned LRB number so we can include it in the co-sponsor memo that is going out this afternoon, that would be great.

Thanks so much,
Natalie

2009 BILL

RMR

Reger

1 AN ACT to amend 20.145 (1) (g) (intro.) and 20.435 (4) (kv); and to create 20.435
2 (4) (kr) and 46.79 of the statutes; relating to: a grant for providing assistance
3 to individuals to obtain and maintain health care benefits and making an
4 appropriation.

Analysis by the Legislative Reference Bureau

This bill requires the Department of Health Services (DHS) to award funding to an organization to oversee a program to assist people in obtaining and maintaining health care services and coverage of health care expenses (health care benefits). The organization in turn must allocate funding to other entities to directly provide people assistance in obtaining and maintaining health care benefits. In addition, the oversight organization must provide training and technical assistance to the entities and provide legal services to aid low-income people in obtaining and maintaining health care benefits.

The services for which funding is authorized under the bill include assisting people in applying for health insurance or government health care programs; appealing denials of eligibility or denials of coverage for health care services; coordinating health care benefits for people who have more than one source of health care coverage; referring people to information and programs regarding preventive health care, chronic disease management, responsible utilization of health care services, and healthy lifestyle; coordinating efforts of community members who are involved in assisting people in obtaining and maintaining health care benefits; and educating people about the services provided under the grant program. The bill

BILL

provides that the oversight organization may award funding for these services to nonprofit entities, governmental units, or institutions of higher education. The bill establishes minimum knowledge requirements for people employed by the entities to provide the services. The bill also prohibits an entity that receives funding, or its employees, from having a financial interest in a health insurance company or health insurance plan or from being directly involved in accrediting a hospital or nursing home.

The bill requires the oversight organization to provide matching funds for the grant in the first year that DHS awards the grant and requires each entity that receives funding from the oversight organization to provide matching funds on an ongoing basis. Finally, the bill requires DHS to apply for any federal funds available for assisting people in obtaining and maintaining health care benefits.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
