

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-4265/1dn

PJK:bjk:md

February 18, 2010

Is limiting the Guideline to the current version too specific? Is it possible that the Guideline will be updated over and over again? Is it possible that something not called *Clinical Practice Guideline* will take its place in the future? It might be best to use a description instead, such as the most recent or current recommendations approved or advocated or recognized by the U.S. department of health and human services for treating tobacco use and dependence.
