**BILL**

- 1 creation of interim regional transit authorities in southeast Wisconsin,  
2 requiring the exercise of rule-making authority, and making an appropriation.

***Analysis by the Legislative Reference Bureau***

Prior to the Biennial Budget Act, 2009 Wisconsin Act 28 (Act 28), the counties of Kenosha, Racine, and Milwaukee were required to create a Regional Transit Authority (the KRM authority). The KRM authority was responsible for the coordination of transit and commuter rail programs within these three counties but had no authority to manage or operate any transit system. The KRM authority was authorized to impose a rental car transaction fee within these three counties, which fee was to be used to hire staff, conduct studies, and prepare a report to the legislature and the governor, due by November 15, 2008.

Act 28 terminated the KRM authority as of October 1, 2009, and created a successor entity, the Southeastern Regional Transit Authority (SERTA). The SERTA is a public body corporate and politic and a separate governmental entity; it consists of the counties of Kenosha, Racine, and Milwaukee. The jurisdictional area of the SERTA is the geographic area formed by the combined territorial boundaries of the counties of Kenosha, Racine, and Milwaukee. The powers of the SERTA are vested in its board of directors. The SERTA's powers are limited but include all powers necessary and convenient to create, construct, and manage a commuter rail transit system connecting the cities of Kenosha, Racine, and Milwaukee (KRM commuter rail line).

Under current law, upon approval by its board of directors, the SERTA may impose a rental car transaction fee, in the counties of Kenosha, Racine, and Milwaukee, of not more than \$18 per transaction, except that the SERTA's board of directors may have this fee annually adjusted for inflation. From each rental car transaction fee, the SERTA may retain not more than \$2 per transaction for administration of the SERTA and may retain the remainder for expenditures related to the KRM commuter rail line, including planning, construction, maintenance, operations, and engineering expenditures. The SERTA is the only entity in the counties of Milwaukee, Racine, and Kenosha that may submit an application to the Federal Transit Administration under the federal New Starts Grant Program (New Starts application) for funding for the KRM commuter rail line. By July 1, 2010, the SERTA must submit a New Starts application to enter the preliminary engineering phase for the KRM commuter rail line. Transit system operators in Kenosha County and Racine County receiving state transit aids must provide copies of all of their annual and long-term transit plans to the SERTA as these plans become available.

Act 28 also authorized the creation of several new regional transit authorities (RTAs): the Dane County RTA, the Chippewa Valley RTA, and the Chequamegon Bay RTA. Each RTA, once created, is a public body corporate and politic and a separate governmental entity. Act 28 also specified the powers and duties of these three RTAs. In brief, for each, the RTA's authority is vested in its board of directors and its bylaws govern its management, operations, and administration. An RTA

**BILL**

may: operate a transportation system or provide for its operation by contracting with a public or private organization; impose, by its board of directors adopting a resolution, a sales and use tax in the RTA's jurisdictional area at a rate not exceeding 0.5 percent of the sales price if certain conditions are satisfied; acquire property by condemnation; and issue tax-exempt revenue bonds. An RTA has a duty to provide, or contract for the provision of, transit service within the RTA's jurisdictional area. Rates and other charges received by an RTA must be used only for the general expenses and capital expenditures of the RTA, to pay interest, amortization, and retirement charges on the RTA's revenue bonds, and for specific purposes of the RTA and may not be transferred to any political subdivision.

This bill authorizes the creation of a new type of RTA known as an Interim Regional Transit Authority (IRTA), which is a public body corporate and politic. The bill also makes significant changes relating to the SERTA.

Under the bill, the governing body of a municipality or county (political subdivision) within the area comprising the counties of Kenosha, Milwaukee, Ozaukee, Washington, Racine, and Waukesha (southeast Wisconsin) may, by resolution, create an IRTA consisting of the political subdivision or may join together with one or more other political subdivisions to jointly create, by adopting identical resolutions, an IRTA. An IRTA may be created only if at least one of the political subdivisions creating the IRTA operated a transit system receiving state transit aids as of the effective date of the bill and each political subdivision creating the IRTA commits to provide certain levels of funding for the IRTA. An IRTA may include no more than one county and all municipalities included in the IRTA must be located within the same county. After an IRTA has been created, a political subdivision within the same county may join the IRTA if the governing body of the political subdivision adopts a resolution identical to the existing resolutions of the IRTA's members (participating political subdivisions) and if the IRTA's board of directors adopts a resolution allowing the political subdivision to join the IRTA. However, the resolution of the joining political subdivision may specify what the composition of the IRTA's board of directors will be after the political subdivision has joined the IRTA and, if the IRTA's board of directors approves the joinder, the IRTA's board of directors thereby agrees to the new composition of the IRTA's board of directors after the joinder.

The jurisdictional area of an IRTA is the geographic area formed by the combined territorial boundaries of all participating political subdivisions of the IRTA. If the IRTA includes a county, the jurisdictional area of the IRTA is the county territorial boundaries. Any resolution creating an IRTA or joining an IRTA must include provisions relating to the IRTA's board of directors and must specify all revenue sources on which the IRTA will rely for funding and the minimum amount of revenue that the IRTA will commit to satisfy the revenue requirements applicable to the IRTA. After an IRTA is created, the participating political subdivisions of the IRTA may amend or modify their resolutions creating or joining the IRTA if they remain identical, although a few changes can be made without the need for formal amendment or modification of the resolutions creating or joining the IRTA.

**BILL**

Under the bill, an IRTA's powers are vested in its board of directors. With certain limitations, an IRTA's board of directors is determined in the resolutions creating or joining the IRTA. However, the board of directors of an IRTA that includes Milwaukee County is established by statute.

The bill requires an IRTA to do all of the following: 1) provide, or contract with existing transit providers for the provision of, transit service within the IRTA's jurisdictional area, except that a Milwaukee County IRTA must contract with the Milwaukee County board for the IRTA to provide transit service in Milwaukee County; and 2) provide transit planning within the IRTA's jurisdictional area. An IRTA's transit plans must be submitted to SERTA. An IRTA is also authorized to do any of the following: 1) acquire a local transit system by entering into a transfer agreement with the owner of the system; 2) provide, or contract for the provision of, transit service outside the IRTA's jurisdictional area if it would benefit residents within the IRTA's jurisdictional area; and 3) apply for and utilize state and federal funds. If an IRTA applies for federal or state funding, the application must first be submitted to the SERTA, which must then provide the application to the appropriate federal or state agency. If the application results in the receipt of any federal or state funds, those funds must first be received by the SERTA, which must then forward the funds to the IRTA.

Under the bill, an IRTA may generate revenue by doing any of the following: 1) imposing a local motor vehicle registration fee; 2) levying a room tax of up to 8 percent on the privilege of furnishing hotel and motel rooms to transients, similar to the current law room tax that a municipality may impose; 3) imposing, by the adoption of a resolution by the IRTA's board of directors, a sales and use tax if approved in a referendum in the IRTA's jurisdictional area; or 4) charging a membership fee to the participating political subdivisions of the IRTA. However, a Milwaukee County IRTA may only impose the sales and use tax, as described in item 3) above. An IRTA must generate specified amounts of revenue, from any one or a combination of revenue sources. Within two years after the creation of an IRTA, the IRTA must either: 1) generate revenue sufficient to offset a 30 percent reduction in passenger fare revenues resulting from transit operations or to provide an 8 percent increase in transit service, or a combination of both, as compared with passenger fare revenues and transit service as of the time that the IRTA was created; 2) invest an amount, equivalent to the revenue that would be sufficient to provide an 8 percent increase in transit service, in either improving existing capital assets of the IRTA or making new capital purchases and improvements for the IRTA; or 3) if the IRTA includes Milwaukee County, increase transit service to a level equal to or greater than the level of transit service provided in Milwaukee County in 2001. In addition, the revenue generated must be used to implement either the specified reduction in passenger fares or the specified increase in transit service, or a combination of both, or the investment must actually be made by the expenditure or commitment of funds for the applicable purchases or improvements (phase 2 revenue threshold). Within four years after its creation, the IRTA, in addition to continuing to meet the phase 2 revenue threshold, must improve the interconnectivity of its transit system by

**BILL**

linking with other modes of transportation and improving cross-county links (phase 3 revenue threshold).

The bill requires the Department of Transportation (DOT) to determine and certify whether each IRTA has met these revenue thresholds, but, in doing so, DOT must make allowances if a municipality or county has joined an IRTA after its initial creation. Subject to the allowances made by DOT, if an IRTA does not meet these revenue thresholds within the applicable time limits, the IRTA is not eligible for incentive funding provided by SERTA (discussed below). Subject to the allowances made by DOT, if an IRTA does not meet these revenue thresholds within two years after the applicable time limits, the IRTA must be dissolved and responsibility for providing transit service and transit planning, as well as all assets, liabilities, rights, and obligations of the IRTA, must revert to the participating political subdivisions of the IRTA.

Under the bill, when three IRTAs have been certified by DOT as meeting the phase 3 revenue threshold, DOT must provide notice of this fact to every IRTA created, specifically identifying these three IRTAs. If DOT subsequently certifies any additional IRTA as meeting the phase 3 revenue threshold, DOT must provide notice of this fact to the SERTA and to every IRTA created, specifically identifying the additional IRTA certified as meeting the phase 3 revenue threshold. After DOT provides one of these notices identifying an IRTA, each IRTA identified in the notice must begin the process of winding down and dissolving and must complete this process no later than 120 days after receiving the notice. As part of the IRTA's winding down process, all of the following must occur: 1) the assets and liabilities of the IRTA must become the assets and liabilities of the SERTA; 2) all tangible personal property, including records, of the IRTA must be transferred to the SERTA; and 3) all contracts entered into by the IRTA, in effect at the time of the winding down, are transferred to the SERTA. The SERTA is the successor to the IRTA. The IRTA terminates on the 120th day after the IRTA receives the DOT notice.

The bill makes some modifications relating to the SERTA regardless of whether the SERTA becomes the successor to IRTAs, and it also makes significant changes to the form and function of the SERTA if the SERTA becomes the successor to IRTAs.

The bill makes the following changes to the SERTA, regardless of whether the SERTA becomes the successor to IRTAs:

1. The SERTA consists of both the counties and cities of Kenosha, Racine, and Milwaukee, not just the counties.

2. The SERTA's board of directors must include certain members from IRTAs, if they are created, regardless of whether these IRTAs reach their phase 3 revenue thresholds and merge into the SERTA.

3. The SERTA may use a portion of the rental car transaction fee it imposes to provide, until June 30, 2011, incentive funds to IRTAs. There is a limitation on the amount of incentive funds that may be awarded, as well as other criteria and limitations related to the SERTA's providing these incentive funds.

4. Beginning on July 1, 2011, the SERTA may provide, from state transit aids, incentive funds to IRTAs to assist them in providing transit service in their jurisdictional areas. The SERTA's bylaws must specify a method for providing these

**BILL**

incentive funds and the limitations and requirements applicable to incentive funds identified in item 3. immediately above also apply these incentive funds.

5. The SERTA may provide nonfinancial transit assistance to any IRTA, including reviewing the transit plans of the IRTA.

6. The bonding limit for revenue bonds issued by SERTA is increased from \$50,000,000 to \$250,000,000.

7. The SERTA is the only entity in southeast Wisconsin that may submit a New Starts application for funding for any purpose.

8. The bill clarifies that SERTA may operate the KRM commuter rail line itself or may contract for a rail service to operate the KRM commuter rail line.

Under the bill, after at least three IRTAs have been certified by DOT as reaching their phase 3 revenue thresholds, these IRTAs merge into SERTA. As the successor entity to these IRTAs and to any subsequent IRTA that DOT certifies as having reached its phase 3 revenue threshold, the SERTA changes in all of the following ways:

1. As discussed above, the IRTAs' assets and liabilities, personal property, records, and contracts are transferred to the SERTA as the SERTA becomes the IRTAs' successor. The SERTA must assist each IRTA in an orderly transfer.

2. Within 120 days after DOT certifies an IRTA as having reached its phase 3 revenue threshold, the SERTA must assume responsibility for providing transit service and transit planning within the old jurisdictional area of the IRTA. In assuming this responsibility, the SERTA has all options for providing transit service that were formerly available to the IRTA and the SERTA must impose sales and use taxes, and may impose a room tax, in the IRTA's old jurisdictional area if the IRTA imposed these taxes and if the SERTA adopts a resolution to establish the tax rate or impose the room tax. The SERTA has all powers necessary and convenient to carry out these responsibilities.

3. After the SERTA has assumed responsibility for transit as described in item 2. immediately above, the SERTA's jurisdictional area changes to cover only the old jurisdictional areas of all IRTAs to which the SERTA has become the successor. However, for purposes of the rental car transaction fee, if the IRTA included any of Racine County, the SERTA's jurisdictional area includes all of Racine County unless the SERTA's board of directors votes otherwise or unless the SERTA's board of directors does not include a member representing Racine County. Also, for purposes of imposing sales and use taxes and the room tax, the SERTA's jurisdictional area does not include the old jurisdictional area of an IRTA that did not impose sales and use taxes or a room tax.

4. After DOT certifies that the first three IRTAs have reached their phase 3 revenue thresholds, and with each certification of an additional IRTA thereafter, the membership of the SERTA changes. Instead of the counties and cities of Kenosha, Racine, and Milwaukee, the members of SERTA are the political subdivisions that were participating political subdivisions in the IRTAs certified by DOT. However, if Racine County was not a participating political subdivision in an IRTA consisting of municipalities located in Racine County, Racine County may still subsequently join the SERTA. The SERTA's board of directors also changes; a director who is not from

**BILL**

a political subdivision that was a member of an IRTA may be removed from the board and, if not removed, has limited voting rights.

5. After DOT certifies that the first three IRTAs have reached their phase 3 revenue thresholds, the SERTA may use proceeds of its revenue bonds for the additional purposes of constructing new capital improvements to the SERTA's transit system and for acquiring existing transit systems.

6. After DOT certifies that the first three IRTAs have reached their phase 3 revenue thresholds, the SERTA is limited in its expenditures of locally derived revenues for purposes related to the KRM commuter rail line. These locally derived revenues are local motor vehicle registration fees, room taxes, sales and use taxes, and membership fees received by the SERTA within the political subdivisions of the SERTA's jurisdictional area. SERTA may expend these locally derived revenues for purposes related to the KRM commuter rail line only if these revenues are ~~expended in the political subdivision from which they were generated and are~~ expended in proportion to ridership of the KRM commuter rail line in ~~the~~ political subdivision, <sup>each</sup> as calculated annually by DOT. In addition, these locally derived revenues may not be expended for construction, operation, or management of the KRM commuter rail line if the expenditure would result in a reduction of transit service in the political subdivision where the revenues were generated. However, by unanimous vote of its full authorized membership, the SERTA board of directors may override either or both of these limitations.

The bill authorizes IRTAs to impose a local motor vehicle registration fee and makes IRTAs eligible to receive grants under DOT's Southeast Wisconsin Transit Capital Assistance Program, created in Act 28. If the SERTA becomes the successor to an IRTA, the SERTA also succeeds to any local motor vehicle registration fee imposed by the IRTA. The SERTA is already eligible, under current law, for DOT's Southeast Wisconsin Transit Capital Assistance Program.

Under the bill, certain provisions of current law that apply to the Dane County RTA, the Chippewa Valley RTA, and the Chequamegon Bay RTA also apply to IRTAs, including the following:

1. An IRTA has authority to acquire property by condemnation.
2. Employees of an IRTA are participatory employees under the Wisconsin Retirement System (WRS) if the IRTA elects to join the WRS.

3. Employees of an IRTA are covered by the the Municipal Employment Relations Act, under which all matters relating to wages, hours, and conditions of employment are subject to collective bargaining and all municipal employees are expressly granted the right to self-organize and to bargain collectively through a representative of their choice.

4. An IRTA is a "local governmental unit" for purposes of the prevailing wage and hour law. Under current law, certain workers employed on a public works project contracted by a local governmental unit must be paid at the rate paid for a majority of the hours worked in the person's trade or occupation in the county in which the project is located, as determined by the Department of Workforce Development, and may not be required or permitted to work more than ten hours per day and 40 hours

**BILL**

per week, unless they are paid 1.5 times their basic rate of pay for all hours worked in excess of those hours.

5. An IRTA is treated like municipalities, counties, and other political subdivisions for purposes of claims and liability resulting from the negligent operation of a motor vehicle and may participate in organizing municipal insurance mutuals to provide insurance and risk management services.

6. An IRTA may enter into intergovernmental cooperation contracts with other governmental units.

7. IRTA property is not subject to state and local property taxes.

8. An IRTA is eligible for urban rail transit system grants and commuter rail transit system development grants from DOT.

If the SERTA becomes the successor to an IRTA, these provisions also apply to the SERTA.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

3 b. For purposes of imposing the taxes under this paragraph, the transit  
4 authority's jurisdictional area shall not include the jurisdictional area of any  
5 authority that did not impose the taxes under par. (ee) before the department of  
6 transportation provided the notice specified in s. 66.1041 (7) (a) identifying that  
7 authority.

8 3. Each time the transit authority adopts a resolution to impose the taxes under  
9 subd. 1., or adopts a resolution to discontinue the collection of such taxes, it shall  
10 deliver a certified copy of the resolution to the secretary of revenue at least 120 days  
11 before its effective date. Each time the transit authority adopts a resolution as  
12 provided in subd. 1., it shall specify to the department of revenue the exact  
13 boundaries of the transit authority's jurisdictional area. If the boundaries are other  
14 than a county line on any side of the transit authority's jurisdictional area, the  
15 transit authority shall provide the department with a complete list of all of the  
16 9-digit zip codes that are entirely within the transit authority's jurisdictional area  
17 and a complete list of all the street addresses that are within the transit authority's  
18 jurisdictional area and not included in any 9-digit zip code that is entirely within the  
19 transit authority's jurisdictional area. The transit authority shall provide a certified  
20 copy of the information required under this subdivision to the department, in the  
21 manner, format, and layout prescribed by the department, at least 120 days prior to  
22 the resolution's effective date. If the boundaries of the transit authority's  
23 jurisdictional area subsequently change, the transit authority shall submit a  
24 certified copy of the information required under this subdivision to the department,

**BILL**

1 (b) 1. Subject to par. (f), and except as provided in subd. 2., if an authority has  
2 been created under par. (a), a political subdivision may join the authority if the  
3 governing body of the political subdivision adopts a resolution identical to the

11 resolutions under par. (g) shall be considered.

12 2. The resolution of a political subdivision adopted under subd. 1. may differ  
13 from each existing resolution by specifying what the composition of the authority's  
14 board of directors will be after the political subdivision has joined the authority, but  
15 this resolution must be consistent with the authority's bylaws as described in sub.

16 (3) (b) 3. If the authority's board of directors thereafter adopts a resolution allowing  
17 the political subdivision to join the authority, the board of directors thereby agrees  
18 to the new composition of the authority's board of directors specified in the resolution  
19 of the joining political subdivision and any existing resolution is considered modified  
20 under par. (g) 2. to reflect this new board composition.

21 (c) Any resolution creating an authority under par. (a) or joining an authority  
22 under par. (b) shall specify all of the following:

23 1. Subject to sub. (3) (b), the composition of the authority's board of directors  
24 and other matters relating to the selection, terms, and duties of the board of  
25 directors.

**BILL**

1           2. All revenue sources on which the authority will rely for funding and the  
2           minimum amount of revenue that the authority will commit to satisfy the revenue  
3           requirements for the authority specified in this section.

4           (d) The jurisdictional area of an authority is the geographic area formed by the  
5           combined territorial boundaries of all participating political subdivisions of the  
6           authority. If the authority includes a county as a participating political subdivision,  
7           the jurisdictional area of the authority is the territorial boundaries of the county.

8           (e) An authority may be created under par. (a) only if all of the following apply:

9           1. At least one of the political subdivisions creating the authority operated a  
10          transit system receiving funding under s. 85.20 on the effective date of this  
11          subdivision .... [LRB inserts date].

12          2. The political subdivision or political subdivisions creating the authority  
13          commit to provide funding for the authority, upon creation, in an amount of at least  
14          the political subdivision's property tax levy contribution to transit as of one year prior  
15          to the effective date of this subdivision .... [LRB inserts date], and also make a  
16          commitment that the authority, after creation, will meet the revenue requirements  
17          specified in sub. (6) through one or more of the revenue sources identified in par. (c)

21          (g) 1. Subject to subs. 2. and 3., if an authority has been created under this  
22          subsection, the participating political subdivisions of the authority may amend or  
23          modify their resolutions creating or joining the authority if, after any amendment or  
24          modification, the resolutions of all participating political subdivisions of the

**BILL**

1 authority remain identical and continue to satisfy the requirements under this  
2 subsection.

3 2. If a political subdivision joins an authority under par. (b), the participating  
4 political subdivisions of the authority may amend or modify their existing  
5 resolutions to accomplish any changes necessary to reflect the addition of the new  
6 political subdivision to the authority, including any changes to the composition of the  
7 authority's board of directors. In lieu of expressly amending or modifying their  
8 existing resolutions, the participating political subdivisions of the authority may  
9 also effect changes to the composition of the authority's board of directors, in  
10 connection with the addition of a new political subdivision to the authority, by means  
11 of the approval process specified in par. (b) 2., in which case the existing resolutions  
12 of the participating political subdivisions are considered modified to reflect the new  
13 composition of the authority's board of directors.

14 3. In lieu of expressly amending or modifying the existing resolutions of the  
15 participating political subdivisions of an authority to reflect changes to the revenue  
16 sources specified in par. (c) 2., these changes to the revenue sources relied upon may  
17 be made by a vote of the authority's board of directors if, after the changes, the  
18 authority continues to satisfy the revenue requirements specified in sub. (6). After  
19 such a vote, the existing resolutions of the participating political subdivisions are  
20 considered modified to reflect the change in revenue sources.

21 **(3) GOVERNANCE OF AUTHORITY.** (a) The powers of an authority shall be vested  
22 in its board of directors. A majority of the board of directors' full authorized  
23 membership constitutes a quorum for the purpose of conducting the authority's  
24 business and exercising its powers. Action may be taken by the board of directors

**BILL**

1 upon a vote of a majority of the directors present and voting, unless the bylaws of the  
2 authority require a larger number.

3 (b) The board of directors of an authority shall be determined as provided in  
4 resolutions creating the authority under sub. (2) (a) or joining an existing authority  
5 under sub. (2) (b) except that all of the following shall apply:

7 9 members.

8 2. The board of directors shall include at least one member from the authority's  
9 jurisdictional area, appointed by the governor.

10 3. Subject to subds. 1. and 2., the bylaws of the authority shall specify a  
11 procedure and guidelines for changing board membership upon the joinder of a  
12 political subdivision under sub. (2) (b).

13 4. Notwithstanding subds. 1. to 3., the board of directors of an authority that  
14 includes Milwaukee County shall consist of the following members:

15 a. Two members from the authority's jurisdictional area, appointed by the  
16 Milwaukee County board chairperson.

17 b. One member from that portion of the authority's jurisdictional area that is  
18 outside the city of Milwaukee, appointed by the Milwaukee County board  
19 chairperson.

20 c. One member, appointed by the mayor of the city of Milwaukee.

21 d. One member from the authority's jurisdictional area, appointed by the  
22 governor.

23 (4) AUTHORITY POWERS AND DUTIES. (a) Notwithstanding s. 59.84 (2) and any  
24 other provision of this chapter or ch. 59 or 85, an authority shall do all of the  
25 following:

**BILL****SECTION 34**

1           1. Provide, or contract with existing transit providers for the provision of,  
2 transit service within the authority's jurisdictional area, except that an authority  
3 that includes Milwaukee County shall contract with the Milwaukee County board  
4 for the authority to provide transit service in Milwaukee County.

5           2. Provide transit planning within the authority's jurisdictional area. Each  
6 transit plan of the authority shall be submitted to the southeastern regional transit  
7 authority.

8           (b) Notwithstanding s. 59.84 (2) and any other provision of this chapter or ch.  
9 59 or 85, in addition to the duties specified in par. (a), an authority may do any of the  
10 following:

11           1. Acquire a comprehensive unified local transit system by entering into a  
12 transfer agreement with the owner of the system.

13           2. Subject to sub. (5), apply for and utilize state and federal funds.

14           3. Subject to the provisions of par. (a) 1. relating to contracts in Milwaukee  
15 County, provide transit service, or contract for the provision of transit service,  
16 outside the authority's jurisdictional area if such transit service would benefit  
17 residents within the authority's jurisdictional area.

18           **(5) FEDERAL AND STATE AID; INCENTIVE FUNDS.** Any application by an authority  
19 for federal or state funding shall first be submitted to the southeastern regional  
20 transit authority, which shall then provide the application to the appropriate federal  
21 or state agency. If the application results in the receipt of any federal or state funds,  
22 those federal or state funds shall first be received by the southeastern regional  
23 transit authority, which shall then forward the funds to the authority that provided  
24 the application.

**BILL**

1           **(6) AUTHORITY REVENUE REQUIREMENTS.** (a) An authority may generate revenue  
2 by doing any of the following, except that an authority that includes Milwaukee  
3 County may generate revenue only as provided in subd. 3.:

4           1. Imposing a local vehicle registration fee under s. 341.35.

5           2. Levying a room tax.

6           3. a. Imposing, by the adoption of a resolution by the board of directors, the  
7 taxes under s. 77.708, except that no authority may adopt such a resolution until a  
8 referendum is held in the authority's jurisdictional area on the question of whether  
9 the authority may impose the taxes under s. 77.708 and the referendum is decided  
10 in the affirmative. For purposes of an authority that has Milwaukee County as the  
11 boundaries of its jurisdictional area, the referendum for imposing sales and use taxes  
12 for transit purposes that was approved in 2008 in Milwaukee County satisfies the  
13 referendum requirement of this subd. 3. a. If an authority adopts a resolution to  
14 impose the taxes, it shall deliver a certified copy of the resolution to the department  
15 of revenue at least 120 days before its effective date. The authority may, by adoption  
16 of a resolution by the board of directors, repeal the imposition of the taxes under s.  
17 77.708 and shall deliver a certified copy of the repeal resolution to the department  
18 of revenue at least 120 days before its effective date.

19           b. If the authority adopts a resolution as provided in subd. 3. a., it shall specify  
20 to the department of revenue the exact boundaries of the authority's jurisdictional  
21 area. If the boundaries are the same as the county lines on all sides of the authority's  
22 jurisdictional area, the resolution shall specify the county or counties that comprise  
23 the authority's entire jurisdictional area. If the boundaries are other than a county  
24 line on any side of the authority's jurisdictional area, the authority shall provide the  
25 department with a complete list of all the 9-digit zip codes that are entirely within

**BILL****SECTION 34**

1 the authority's jurisdictional area and a complete list of all the street addresses that  
2 are within the authority's jurisdictional area and not included in any 9-digit zip code  
3 that is entirely within the authority's jurisdictional area. The authority shall  
4 provide a certified copy of the information required under this subd. 3. b. to the  
5 department, in the manner, format, and layout prescribed by the department, at  
6 least 120 days prior to the resolution's effective date. If the boundaries of the  
7 authority's jurisdictional area subsequently change, the authority shall submit a  
8 certified copy of the information required under this subd. 3. b. to the department,  
9 in the manner, format, and layout prescribed by the department, at least 120 days  
10 prior to the change's effective date.

11 c. If the authority adopts a resolution as provided in subd. 3. a., beginning with  
12 the year in which the resolution is adopted, no participating political subdivision  
13 may levy property taxes for transit in an amount exceeding 50 percent of the amount  
14 of the taxes under s. 77.708 that the authority allocates to the participating political  
15 subdivision for the year for which the property taxes are levied, based on the amount  
16 of the taxes under s. 77.708 that the department of revenue estimates it will collect  
17 for the authority for that year. This subd. 3. c. does not apply to the year in which  
18 the resolution is adopted if the resolution is adopted after the participating political  
19 subdivision establishes its property tax levy for transit.

20 4. Charging a membership fee to the participating political subdivisions of the  
21 authority.

22 (b) An authority shall generate revenue equal to the amount required by pars.  
23 (c) and (d). This minimum revenue requirement may be met through funding from  
24 one or a combination of revenue sources identified by resolution under sub. (2) (c) 2.,

**BILL**

1 including any revenue option under par. (a) except that an authority that includes  
2 Milwaukee County may not generate revenue as provided in par. (a) 1., 2., or 4.

3 (c) 1. Within 2 years after the creation of an authority, the authority shall do  
4 any of the following:

5 a. Generate revenue sufficient to offset a 30 percent reduction in passenger fare  
6 revenues resulting from transit operations or to provide an 8 percent increase in  
7 transit service, or a combination of both, as compared with passenger fare revenues  
8 and transit service as of the time that the authority was created. With this revenue,  
9 the authority shall implement either the specified reduction in passenger fares or the  
10 specified increase in transit service, or a combination of both.

11 b. Invest an amount, equivalent to the revenue that would be sufficient to  
12 provide an 8 percent increase in transit service, in either improving existing capital  
13 assets of the authority or making new capital purchases and improvements for the  
14 authority. An investment under this subd. 1. b. is not considered to be made until  
15 funds have actually been expended or committed for any applicable purchase or  
16 improvement.

17 c. If the authority includes Milwaukee County, increase transit service to a  
18 level equal to or greater than the level of transit service provided in Milwaukee  
19 County in 2001.

20 2. For purposes of this paragraph, a 15 percent reduction in passenger fare  
21 revenues is equivalent to a 4 percent increase in transit service. For purposes of this  
22 paragraph, increases in transit service may be calculated by the increase in either  
23 transit service miles or transit service hours regardless of whether the transit service  
24 occurs within or outside the authority's jurisdictional area, and increases in

**BILL****SECTION 34**

1 paratransit miles or paratransit hours shall be included in calculating increases in  
2 transit service miles or transit service hours.

3 3. Every 2 years after an authority is created under this section, the  
4 department shall determine and certify whether the authority has met the  
5 requirements specified in this paragraph. In making this determination, the  
6 department shall calculate, and make publicly available, the dollar amount of the  
7 passenger fare revenue reductions and the transit service mile or hour increases that  
8 would be necessary for the authority to satisfy the requirements under subd. 1. a.,  
9 the dollar amount of the investment in existing capital asset improvements or new  
10 capital purchases and improvements that would be necessary for the authority to  
11 satisfy the requirements under subd. 1. b., and the transit service mile or hour  
12 increases that would be necessary for the authority to satisfy the requirement under  
13 subd. 1. c. In making its calculation and determination under this subdivision, the  
14 department shall consider whether, and make allowances for the fact that, any  
15 municipality or county joined the authority under sub. (2) (a) after its initial creation.

16 (d) 1. Within 4 years after the creation of an authority, in addition to continuing  
17 to satisfy the requirements specified in par. (c), the authority shall improve the  
18 interconnectivity of its transit system by linking with other modes of transportation  
19 and improving cross-county links.

20 2. The department shall, by rule, establish criteria for determining whether an  
21 authority has satisfied the requirement under subd. 1. In promulgating this rule,  
22 the department shall take into account the concerns of taxpayers and the mobility  
23 concerns of employers and employees.

24 3. The department shall determine and certify whether an authority has  
25 satisfied the requirement specified in subd. 1.

**BILL**

1 (e) 1. Subject to subd. 3., if an authority does not meet the requirements  
2 specified in pars. (c) 1. and (d) within the time limits specified in those provisions,  
3 the authority is not eligible for incentive funding provided under s. 59.58 (7) (L) or  
4 (m).

5 2. Subject to subd. 3., if an authority does not meet the requirements specified  
6 in pars. (c) 1. and (d) within 2 years after the time limits specified in those provisions,  
7 the authority shall be dissolved and responsibility for providing transit service and  
8 transit planning, as well as all assets, liabilities, rights, and obligations of the  
9 authority, shall revert to the participating political subdivisions of the authority. If  
10 an authority is dissolved under this subdivision, the authority shall, before  
11 dissolving, adopt a resolution by the board of directors repealing the imposition of the  
12 taxes under s. 77.708 and deliver a certified copy of the repeal resolution to the  
13 department of revenue at least 120 days before its effective date.

14 3. If any municipality or county joins an authority under sub. (2) (b) after its  
15 initial creation, the department may make allowances for this fact, including  
16 delaying or suspending the penalties under subds. 1. and 2. for failure to meet the  
17 requirements specified in pars. (c) 1. and (d).

18 **(7) SUNSET AND TRANSITION.** (a) When 3 authorities created under this section  
19 have been certified by the department under sub. (6) (d) 3. as having satisfied the  
20 requirement specified in sub. (6) (d) 1., the department shall provide notice of this  
21 fact to every authority created under this section, specifically identifying these 3  
22 authorities, and this notice shall be considered the department's first notice under  
23 this paragraph. If any authority created under this section is subsequently certified  
24 by the department under sub. (6) (d) 3. as having satisfied the requirement specified  
25 in subd. (6) (d) 1., the department shall provide notice of this fact to the southeastern

**BILL****SECTION 34**

1 regional transit authority and to every authority created under this section,  
2 specifically identifying the authority that has been subsequently certified.

3 (b) Upon receiving a notice specified in par. (a), each authority identified in the  
4 notice shall begin the process of winding down and dissolving, including taking those  
5 actions specified in this subsection, and shall complete this process no later than 120  
6 days after receiving the notice. Notwithstanding sub. (4), upon receiving a notice  
7 specified in par. (a), the duties of each authority identified in the notice shall be  
8 limited to winding down and dissolving the authority and facilitating the transition  
9 described in this paragraph. The board of directors of the authority shall assist in  
10 good faith in the transition from the authority to the southeastern regional transit  
11 authority. The southeastern regional transit authority shall be considered the  
12 successor to an authority created under this section and wound down under this  
13 paragraph. As part of the authority's winding down process, all of the following shall  
14 occur:

15 1. The assets and liabilities of the authority shall become the assets and  
16 liabilities of the southeastern regional transit authority.

17 2. All tangible personal property, including records, of the authority shall be  
18 transferred to the southeastern regional transit authority.

19 3. All contracts entered into by the authority, in effect at the time of winding  
20 down the authority, remain in effect and are transferred to the southeastern regional  
21 transit authority. The southeastern regional transit authority shall carry out any  
22 obligations under such a contract until the contract is modified or rescinded by the  
23 southeastern regional transit authority to the extent allowed under the contract.

24 (c) Any authority identified in a notice under par. (a) terminates on the 120th  
25 day after the authority receives that notice.

14 August 17, 1961, to any such governmental unit or for its benefit while the grantor  
15 or others for his or her benefit are permitted to occupy the land or part thereof in

Aaron,

Could you change the draft so that if an IRTA levies a sales tax, participating political subdivisions cannot levy property tax for transit? I think eliminating the language between the word "transit" on page 34, line 8 and "This" on page 34 line 12 should do the job. If that section read:

c. If the authority adopts a resolution as provided in subd. 3. a., beginning with the year in which the resolution is adopted, no participating political subdivision may levy property taxes for transit. This subd. 3. c. does not apply to the year in which the resolution is adopted if the resolution is adopted after the participating political subdivision establishes its property tax levy for transit.

It would make the change we're looking for.

Thanks,

Tyler
