To Denise Solie:

is removed
I did not reinsert the medical assistance reporting requirement exactly as worded in current law. The current law version, ~~once removing~~ *after* the current hospital assessment appropriation reference, only refers to one of many components making up the state share of medical assistance. Adding a reference to the new hospital assessment appropriation would not complete the state share either. I have worded the amended section to include all components of the state share without referring to them by section number. If you would like me to refer to specific appropriation section, please let me know what sections you would like included. *sections*
