

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRBa0778/1dn
RCT:jld:md

September 22, 2009

Elise Nelson:

Under the bill as passed by the Senate, a manufacturer that exceeded its target recycling weight received one recycling credit for each pound of electronic waste over the target weight, but the number of credits is capped at 20 percent of the target weight. This amendment eliminates the 20 percent cap, but provides that in any program year a manufacturer may not satisfy more than 25 percent of its target weight requirement using credits.

Please let me know if you have any questions.
