Description Modifying the definition of all-terrain vehicle					

Assumptions Used in Arriving at Fiscal Estimate

Bill Summary:

The bill modifies the definition of an all-terrain vehicle (ATV) by: 1.) expanding the maximum width of an ATV from 48 inches to 50 inches; 2.) defining an ATV as designed by the manufacturer to travel on three or more low-pressure tires; 3.) eliminating the size of the rim requirement; and 4.) increasing the maximum operating pressure for a low-pressure tire from six pounds to ten pounds per square inch.

State Fiscal Estimate:

The modification of the definition of an ATV will permit previously non-legal ATVs to be registered. It is unknown how many more ATVs will become newly registered, but the number could easily be in the thousands. The segregated ATV account will have increased revenues based on more ATV registrations. The Department may have some costs associated with updating the ATV registration system and law enforcement education; since these are estimated to be minimal, it is assumed the costs can be absorbed within the Department's budget.

Local Fiscal Estimate:

This increase in registration dollars will provide additional monies to counties in the form of additional trail aids.

Long-Range Fiscal Implications
