

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRBs0075/P1dn
RCT:kjf:rs

June 4, 2009

Representative Hubler:

This is a preliminary version of the substitute amendment to AB 258. I used the term "waste oil" to clarify that this applies to oil that is spilled before it is used (in transferring the oil into a machine, for example) as well as used oil. I modified the definition a little from the definition in DNR's rule for the same reason.

Please let me know if you have any questions or want any changes.
