Peter,

I have been asked to get this bill redrafted as soon as I can so that the introductory language reads as outlined below. I know we already had this bill jacketed for the Assembly so any change would require a new LRB number.

115.292 State superintendent interventions. (1) If the state superintendent determines that a school is in need of improvement for five consecutive years or a school district is in need of improvement for four consecutive years, the state superintendent may direct the school board to do one or more of the following in the school or school district:
