Heather,

Here is the description that I am putting in the amendment. If you have any change to it, please let me know ASAP. This is based on the wikipedia site, but the description there is focused on the amphibious vehicles and I'm not sure if there is any significant difference in the "shuttles."

3. A 6-wheel drive utility vehicle originally manufactured for use by the U.S. military forces during World War II, known by the acronym of "DUKW" and commonly referred to by the name of "Duck."

Thanks. Aaron
