

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-2465/P1dn
RNK:jld:jf

April 21, 2009

As you know, I do not understand the purpose of the “right-of-way” exemption in the the draft that you provided. As you suggested, I spoke to Gary Eddy with the Department of Natural Resources for an explanation of this exemption language. He told me that he did not propose this language and thought that it would cause confusion. Based on this discussion, I have removed the exemption language (and the corresponding explanation in your NOTES) from this version of the draft.

Please feel free to contact me if you have any questions about this draft.
