2009 ASSEMBLY BILL 314

June 16, 2009 – Introduced by Representatives Molepske Jr., Berceau, Richards, Sinicki, Milroy, Black, Benedict, Turner, Zigmunt, Jorgensen, Roys, A. Williams, Soletski and Smith, cosponsored by Senators Wirch, Lassa, Plale, Hansen and Lehman. Referred to Committee on Natural Resources.

AN ACT *to create* 20.115 (7) (i) and 94.697 of the statutes; **relating to:** pesticide use by railroads, granting rule-making authority, and making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Agriculture, Trade and Consumer Protection (DATCP) administers laws that regulate the sale and use of pesticides, including herbicides.

This bill requires a railroad to annually make information about its pesticide use available to the railroad's employees and those who own land adjacent to the railroad's rights—of—way. The bill generally prohibits a railroad from requiring a person to work in an area to which a pesticide has been applied within 24 hours of the application of the pesticide.

The bill requires DATCP to establish, by rule, fees to be paid by railroad companies to cover the costs DATCP incurs under the bill. The bill also requires DATCP to promulgate rules to limit the times and weather conditions in which pesticides may be applied by railroads to prevent damage to lands adjoining rights—of—way and to protect the health of employees of railroads and their contractors.
