

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-1726/1dn
MGG&EVM:kjf:rs

As drafted, ATVs being used for snow removal are treated differently than “snow removal devices” as defined in s. 340.01 (58). ATVs may be used on sidewalks, are subject to the speed restrictions in s. 23.33 (3) (gh) and (3r) and the 2-mile distance requirement. “Snow removal devices” may not be used on sidewalks and are not subject to the speed restrictions or the 2-mile distance requirement. OK?

Mary Gibson-Glass
