Description Prohibiting smoking in indoor areas, in sports arenas, and in public conveyances and providing a penalty					

Assumptions Used in Arriving at Fiscal Estimate

2009 AB 252 expands smoking prohibitions that apply to public buildings and places of employment. Generally, smoking would be prohibited in indoor areas, in sports arenas, and in public conveyances. The legislation also revises provisions regarding sign requirements (e.g., specify uniform dimensions and other characteristics of signs setting forth the prohibition), which the Department is responsible for administering.

There would be a one-time workload associated with updating existing administrative rules regarding signs, a workload that can be absorbed within current resources. Otherwise, the changes indicated by 2009 AB 252 would not result in additional workload for the Department. Therefore, 2009 AB 252 would have no fiscal impact on the Department.

There would be costs associated with increased enforcement for local units of government. However, these costs are indeterminable.
