

## Fiscal Estimate Narratives

DHS 7/28/2009

LRB Number	09-2005/1	Introduction Number	AB-0313	Estimate Type	Original
<b>Description</b> Licensure fee for an emergency medical technician					

### Assumptions Used in Arriving at Fiscal Estimate

Current law allows the Department to charge a fee for issuing an EMT license. The Department may not charge a fee for an EMT-basic license if an individual is employed by a public agency and works for an ambulance service provider.

AB 313 provides that the Department may also not charge a fee if the individual applying for an EMT-basic license will receive no income for providing emergency medical technician services under the license. Currently, the Department does not charge any fee for issuing an EMT license. As a result, there will be no immediate cost to the Department as a result of this bill.

### Long-Range Fiscal Implications

If, in the future, it is necessary for the Department to establish fees for EMT-licenses, this statutory change would exempt additional persons from fees. This change is unlikely to have a direct fiscal impact on the Department, given that the number of EMT-basics affected by this legislation is quite modest.
