Assumptions Used in Arriving at Fiscal Estimate

If this bill were to be enacted, prosecutors anticipate that there would be a minor fiscal impact upon their offices. It is difficult to provide an estimate of what this impact could be due to a lack of data concerning how many persons have caused or threatened bodily harm to prosecutors or their family members.

Long-Range Fiscal Implications

Should this bill be enacted, prosecutors expect a minor long-term fiscal impact on their offices. Providing an estimate of the fiscal impact is difficult because of a lack of data pertaining to how many persons caused or threatened bodily harm to prosecutors or their families.
