Description

Requiring an aging and disability resource center to perform a financial screening for, provide information to, and assist individuals choosing to participate in the self-directed services option (suggested as remedial legislation by the Department of Health Services)

Assumptions Used in Arriving at Fiscal Estimate

Senate Bill 491 updates the statutes to expand the responsibilities of the Aging and Disability Resource Centers (ADRCs). The bill requires ADRCs to provide information about the IRIS program, the self-directed long-term care alternative to Family Care, to administer functional screenings and financial and cost-sharing screening for IRIS enrollees, and to provide information on Family Care and IRIS to residents of facilities who have a developmental disability.

ADRCs currently perform all of the responsibilities covered by SB 491. As a result, this bill will have no fiscal impact on the Department of Health Services or local entities, such as ADRCs or county departments.

Long-Range Fiscal Implications
