## Fiscal Estimate Narratives

DOA 3/25/2010

LRB Number	<b>09-4389/1</b>	Introduction Number	<b>SB-624</b>	Estimate Type	<b>Original</b>
<b>Description</b> expanding the authority of political subdivisions to make residential energy efficiency improvement loans, and authorizing political subdivisions to make water efficiency improvement loans and impose special charges for the loans.					

### Assumptions Used in Arriving at Fiscal Estimate

Under current law, a municipality is authorized to impose a special charge against real property for various services rendered. Further, a political subdivision is authorized to make loans for energy efficiency improvements and collect loan payments in installments as a special charge. This bill expands the entities eligible for such loans and also expands the purposes for which such loans may be made. These loans are to be made by political subdivisions using local funds; the Department of Administration (DOA) would have no involvement. Consequently, this bill has no fiscal impact on DOA.

DOA does not have the data necessary to estimate the extent to which political subdivisions would make use of this provision or to estimate the rate at which such loans may be repaid or default and, thus, cannot forecast any local government fiscal impact.

### Long-Range Fiscal Implications

Unknown.
