Committee on Forestry

FROM: Patrick E. Fuller, Assembly Chief Clerk

RE: Clearinghouse Rules Referral

The following Clearinghouse Rule has been referred to your committee.

CLEARINGHOUSE RULE 10-031

AN ORDER to repeal NR 46.18 (7) (c) and 46.30 (2) (a) to (g); to amend NR 46.02 (24m), 46.16 (7), 46.165 (4) (f), 46.18 (2) (d) and (8) (b); and to create NR 46.16 (1) (cm), 46.18 (5) (c), and 46.30 (2) (a) to (h), relating to the administration of the forest crop law and managed forest law.

Submitted by **Department of Natural Resources.**

Report received from Agency on **July 19, 2010.**

To committee on **Forestry.**

Referred on **Thursday, July 22, 2010.**

Last day for action - **Monday, August 23, 2010.**

Under section 227.19 (4) of the Wisconsin Statutes, your committee has 30 days to take action or get an extension. The day **after** the official referral date is day one of your review period. Therefore, the 30th day should fall four weeks and two days after the referral date. For example, for Clearinghouse Rules referred on a Monday, a Wednesday would be your 30th day. For Clearinghouse Rules referred on a Thursday or Friday, your 30th day would fall on a weekend. Therefore, your time would expire on the next working day (Monday) as provided for in s. 990.001 of the Wisconsin Statutes. Also, if the 30th day falls on a legal holiday, time would expire on the next working day.

To extend your review period for an additional 30 days, your committee has one of two options. Section 227.19(4)(b) states that you can request in writing that the agency meet with the committee to review the proposed rule. Another option is to publish or post notice that the committee will hold a meeting or hearing to review the proposed rule and immediately send a copy of the notice to the agency.

Section 227.19 **requires** you to notify each member of your committee that you have received this Clearinghouse Rule. Although some committee chairs choose to do so, you are not required by law or rule to send a copy of the text of the rule to each member at this time. Instead, your notice could state that members should contact you if they wish to receive a hard copy of the rule. Another option would be to email the rule to members. Please put a copy of your official notification memo in the rule jacket.

Three copies of the Clearinghouse Rule and its accompanying documents are contained in the jacket. If you wish to have your Legislative Council attorney review the Clearinghouse Rule, send him/her a copy. I only need one copy remaining in the jacket when you report it out of committee at the end of the review period.

The identical process is happening simultaneously in the Senate. Keep track of their action on the rule.

For assistance with the Clearinghouse Rule process, please consult Kay Inabnet (6-5550) or your Legislative Council attorney. If you wish to learn more on this subject, read *Review of Administrative Rules* which is part of the Legislative Council's Wisconsin Legislator Briefing Book series, section 227.19 of the Wisconsin Statutes or part 2 of the *Administrative Rules Procedures Manual* written by the Revisor of Statutes Bureau and the Wisconsin Legislative Council staff.

WISCONSIN STATE LEGISLATURE

**State of Wisconsin
Department of Natural Resources**

**NOTICE TO PRESIDING OFFICERS
OF PROPOSED RULEMAKING**

Pursuant to s. 227.19, Stats., notice is hereby given that final draft rules are being submitted to the presiding officer of each house of the legislature. The rules being submitted are:

Board Order No.:	FR-04-10
Clearinghouse Number	CR-10-031
Subject of Rules:	Timber Stumpage Values and Administration of Managed Forest Law
Date of Transmittal:	July 19, 2010

Send a copy of any correspondence or notices pertaining to the rule to:

Linda Haddix
Department Rules Coordinator
101 South Webster, LS/8
P O Box 7921
Madison, WI 53707-7921

An electronic copy of the proposed rules submittal may be obtained by contacting: Linda.haddix@wisconsin.gov

REPORT TO LEGISLATURE

NR 46, Wis. Adm. Code

Board Order No. FR-04-10
Clearinghouse Rule No. 10-031

Basis and Purpose of the Proposed Rule

Changes to streamline the MFL program are being done to clarify how the department will create an extension to the application deadlines for landowners who purchase expiring forest crop law lands, clarify requirements for additions to existing managed forest law lands, amend the certified plan writer reporting requirements for plan preparation costs and requirements for making an offer to landowners for management plan writing services, amend the department billing requirements when invoicing landowners for management plan preparation, and amend the stocking requirements for management of plantations.

1. **Exemption for forest crop law expiration:** Changes to NR 46.16(1)(cm) and NR 46.18(5)(c) would create an exemption for landowners who purchase expiring forest crop law lands within 18 months prior to expiration and who would like to apply for managed forest law. Purchasers of expiring forest crop land may not have the time or opportunity to meet managed forest law application deadlines, causing the forest crop land to expire and placed on the regular ad valorem property tax roll. Landowners whose forest crop lands are not enrolled into managed forest law must pay a termination tax based on the value of standing timber. Changes to NR 46 would allow for an additional period of time for landowners to enroll in the managed forest law program.
2. **Additions to existing managed forest land:** Recent changes to NR 46.16(5) required that landowners enroll lands by municipality except when lands on either side of the municipal line do not meet eligibility requirements. Changes to NR 46.16(7) will require that the same eligibility requirements apply to additions as well as new enrollments so that additions across municipal lines are done only in situations where lands cannot qualify for a new entry under NR 46.17 and s. 77.82(1)(a), Stats.
3. **Amendments to reporting, offer for service, and billing requirements.** Amending NR 46.165(4)(f), repealing NR 46.18(7)(c), and amending NR 46.18(8)(b) would streamline administrative processes.

NR 46.165(4)(f) would eliminate the requirement that certified plan writers report plan writing services using a base rate and cost per acre. Many certified plan writers bill landowners for plan writing services by using only a cost per acre or hourly rate. Eliminating a base rate would make it easier for all certified plan writers to submit cost data to the department.

NR 46.18(7)(c) would be deleted. This provision states how a certified plan writer makes an offer for plan writing services to a landowner. The department has no mechanism to insure that this provision is completed by certified plan writers, nor should the department set business practices for certified plan writers through the forest tax law administrative rules. Guidance on what an offer for plan writing services can be discussed verbally for certified plan writers who need additional information.

NR 46.18(8)(b) would be amended to reflect that the department will no longer charge a base rate and per acre fee when billing landowners for plan writing services. The billing will include only a per acre rate to reflect the information required from certified plan writers in NR 46.165(4)(f) Wis. Admin Code.

4. **Amendments to plantation stocking requirements:** Stocking requirements are established to determine when lands are adequately stocked and capable of fully utilizing the site to grow forest products in a reasonable time frame. Fully stocked stands can be thinned or harvested at regular intervals, providing Wisconsin's forest products industry with valuable raw material and local municipalities with a periodic income through payment of severance and yield taxes.

The minimum medium density for plantations has been established at 600 trees per acre. Current research has shown that plantations have the ability to fully utilize the size at lower densities than was previously determined, as long as the trees are evenly distributed throughout an area. NR 46.02(24m) and NR 46.18(2) will be amended to establish the minimum medium density for plantations at 400 trees per acre to reflect this new information.

Summary of Public Comments

Attendance at the public hearing decreased this year compared to past years. Submittal of written comments during the public comment period also decreased.

One written comment by letter from Mr. Scott Henker – Plum Creek Timber supporting the decreasing of the medium density tree plantation requirement.

Appearances at the Public Hearing

April 14, 2010 – Stevens Point

As interest may appear:

Juris Repsa, 1011 Cheryl Court, Port Edwards, WI 54469-1164

In support – none

In opposition – none

May 13, 2009 – Madison – no appearances

Modifications Made

No modifications were made due to public comment. No modifications were requested by the Natural Resources Board.

Changes to Rule Analysis and Fiscal Estimate

No modifications were made to the rule analysis or fiscal estimate as a result of the public comments.

Response to Legislative Council Rules Clearinghouse Report

All Clearinghouse comments were addressed.

Final Regulatory Flexibility Analysis

Certified Plan Writers will be impacted by the proposed rule by changing the manner in which they report management plan cost data to the department.

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD
REPEALING AND RECREATING RULES

The Wisconsin Natural Resources Board proposes an order to amend NR46.02(24m), create NR46.16(1)(cm), amend NR46.16(7), amend NR46.165(4)(f), amend NR46.18(2)(d), create NR46.18(5)(c), repeal NR 46.18(7)(c), amend NR 46.18(8)(b), repeal NR46.30(2).

FR-04-10

Analysis Prepared by the Department of Natural Resources

Statutes interpreted: Section 77.06 (2) and subch. VI Ch. 77, Stats .

Statutory authority: Sections 77.06 (2), 77.82 (3) (c), 77.91 (1), Wis. Stats., and 227.11(2)(a), Wis. Stats. Section 77.82 gives implicit authority to the department to create rules for processing petitions.

Analysis of proposed rules.

Annual Stumpage Rate Adjustment: Due to the enactment of Act 365 on May 18, 2010 the annual stumpage values are no longer promulgated through the rules process and have been removed from this rules package. The department is developing processes to determine the annual stumpage rates for future years.

Amendments to minimum medium density of plantations in NR 46.02(24m) and NR 46.18(2)(d): Stocking requirements are established to determine when lands are adequately stocked and capable of fully utilizing the site to grow forest products in a reasonable time frame. Fully stocked stands can be thinned or harvested at regular intervals, providing Wisconsin's forest products industry with valuable raw material and local municipalities with a periodic income through payment of severance and yield taxes.

The minimum medium density for plantations has been established at 600 trees per acre. Current research has shown that plantations have the ability to fully utilize the size at lower densities than was previously determined, as long as the trees are evenly distributed throughout an area. NR 46.02(24m) and NR 46.18(2) will be amended to establish the minimum medium density for a plantation at 400 trees per acre to reflect this new information.

Amendments to the managed forest law petition deadlines and management plans if petitions from owners of land entered as forest crop land are subject to an ownership change within 18 months prior to the end of the forest crop law contract period in NR 46.16(1)(cm) and NR 46.18(5)(c).

Landowners who purchase expiring forest crop law lands within 18 months prior to the expiration of forest crop law contract may be interested in enrolling in the managed forest law program. New landowners, depending upon the date of purchase, may find it difficult to meet the petition deadlines established by statute and administrative code. Forest crop law lands that are not immediately enrolled in the managed forest law are placed on the regular property tax rolls and landowners are assessed a termination tax.

NR 46.16(1)(cm) is created to allow landowners who purchase expiring forest crop law lands within 18 months prior to the end of the forest crop law expiration the opportunity to apply for the July 1 petition deadline or later for good cause to be considered for designation effective the following January 1.

Management plans would need to be developed by certified plan writers; however management plans would not need to have been previously reviewed by the department by the deadline date of March 1. Department review of the managed forest law petition will be done according to the provisions of NR 46.18(5).

Amendments to the requirements for additions to existing managed forest land in NR 46.16(7):

Recent changes to NR 46.16(5) required that landowners enroll lands by municipality except when lands on either side of the municipal line do not meet eligibility requirements. Changes to NR 46.16(7) will require that the same eligibility requirements apply to additions as well as new enrollments so that additions across municipal lines are done only in situations where lands cannot qualify for a new entry under NR 46.17 and s. 77.82(1)(a), Stats.

Amendment to the format that Certified Plan Writers submit plan writing data to the department in NR 46.165(4)(f):

The method in which certified plan writers submit their plan preparation costs for work done in the previous 12 months is being amended to make it easier for certified plan writers to submit the data.

Currently, NR 46.165(4)(f) requires that certified plan writers submit their plan preparation cost by base rate per plan plus the cost per acre. Many certified plan writers charge clients an hourly rate or a per acre rate. These certified plan writers are not able to easily determine their base rate and cost per acre.

The change to administrative code will eliminate the requirement to submit a base rate per plan.

The department collects this information in order to determine the average cost of plan writing services statewide. This average value is used to charge landowners for plan writing services on plans that the department writes.

Eliminate the requirement that offers for plan writing services must be in writing and guarantee that plans are submitted for the following July 1 deadline in NR 46.18(7)(c):

Management plans that are submitted for the July 1 petition deadline without a management plan or indicating a certified plan writer are placed on a management plan referral list. Certified plan writers are given the opportunity to offer plan writing services to landowners.

NR 46.18(7)(c) provided that certified plan writers must submit their offers in writing and include the cost for the management plan preparation service and guarantee that an approvable plan will be completed by the following July 1. The department does not require that it receive a copy of the offer, only that a certified plan writer report that an offer has been made within 5 days of the offer under NR 46.18(7)(d).

The managed forest law statutes and administrative codes establish the eligibility and management provisions of the program, but do not establish the business practices of certified plan writers in working with private landowners. Additionally, the cooperating forester agreement (note: certified plan writers must also be a cooperating forester) states that cooperating foresters have sole control over the methods, hours worked, and time and manner of any performance under the agreement other than as expressly required by the Cooperative Agreement.

Because the department has no mechanism to insure that written offers are provided to landowners, and because the department does not direct the business practices of certified plan writers, NR 46.18(7)(c) this provision will be removed from administrative code.

Amendment of the format in which the department charges landowners for plan writing services in NR 46.18(8)(b).

The department must charge landowners a plan preparation fee that includes a base rate and a rate per acre. Changes to NR 46.165(4)(f) to eliminate the requirement to submit a base rate per plan will require the department's billing procedure to also change. Changes to NR 46.18(8)(b) will eliminate the base rate per plan.

Comparison of Federal Regulations: There are no known federal rules which apply to stumpage rates or Managed Forest Law petitions.

Comparison of Adjacent States: Checks with the surrounding states of Minnesota, Michigan, Iowa and Illinois indicate that while they offer some type of incentive program to forest landowners, none of the states have similar forestry practice requirements.

Anticipated cost by private sector:

Changes associated with this rule package will have no fiscal effect and allow additional time for plans to be written and approved. Exceptions to application deadlines will allow additional time for plans to be written and approved.

Analysis to determine effect on small business: A review of the law shows there will be no impact on small businesses.

e-mail: Kathryn.Nelson@Wisconsin.gov

SECTION 1. NR 46.02(24m) is amended to read:

46.02 (24m) "Understocked areas" means forest lands not meeting the minimum medium density classification (source, DNR Manual Code 8625.2) described in the following size classes:

Stand Size Classes	Tree Diameter Ranges at 4.5 Feet From Ground Level	Minimum Medium Density
Seedlings	0"-1"	800 trees per acre ¹
Saplings	1"-5"	400 trees per acre ²
Pole timber	5"-9"* , 11"***	7 cords per acre
Sawtimber	9"+* , 11"+**	3,000 board feet per acre

*For conifer species

**For other species

¹ Applies to natural stands. Planted stands with uniform spacing qualify as medium density with 600 400 trees per.

² Applies to natural stands. Planted stands with uniform spacing qualify as medium density with 300 trees per acre.

Note: DNR Manual Code is available for inspection at any DNR office.

SECTION 2. NR 46.16(1)(cm) is created to read:

NR 46.16(1)(cm). Notwithstanding pars. (a), (b) and (c), petitions from owners of land entered as forest cropland under s. 77.02, Stats. subject to an ownership change within 18 months prior to the end of the contract period shall be postmarked or received by the department no later than July 1 or later for good cause to be considered for designation effective the following January 1.

SECTION 3. NR 46.16(7) is amended to read:

NR 46.16(7) ADDITIONS. An owner petitioning may petition the department to designate 10 or more acres of land as managed forest land which is contiguous to land that was designated as managed forest land on or after April 28, 2004 shall indicate on the petition whether the land subject to the petition is to be ordered designated as managed forest land under a separate order or as an addition to the previously designated and contiguous managed forest land. If the petition for an addition is for land which is contiguous to land that was designated as managed forest land on or after April 28, 2004 in an adjacent municipality, the land must be designated under a separate order if it meets the eligibility requirements under s. NR 46.17 and s. 77.82(1)(a), Stats.

SECTION 4. NR 46.165(4)(f) is amended to read:

NR 46.165(4)(f) On or before May 31 of each year submit a report of managed forest law management plan packet preparation costs charged as an independent certified plan writer during the preceding 12 months in a method approved by the department. The report shall include the ~~cost by base rate plus~~ cost per acre, the county where the land was located and the acres covered by the plan.

SECTION 5. NR 46.18(2)(d) is amended to read:

NR 46.18(2)(d) Reforestation of land to meet one of the following size and minimum medium density classifications:

Stand Size Classes	Tree Diameter Ranges at 4.5 Feet From Ground Level	Minimum Medium Density
Seedlings	0" - 1"	800 trees per acre for natural stands. 600 400 trees per acre for planted stands.
Saplings	1" - 5"	400 trees per acre for natural stands. 300 trees per acre for planted stands.
Pole timber For conifer species	5" - 9"	7 cords per acre

For other species	5" - 11"	
Sawtimber		
For conifer species	9"+	3,000 board feet per acre.
For other species	11"+	

SECTION 6. NR 46.18(5)(c) is created to read:

NR 46.18(5)(c)1. Management plans for petitions under s. NR 46.16 (1) (cm) received on or before July 1 shall be prepared by a certified plan writer.

2. Management plans prepared by an independent certified plan writer shall be approved by the department, signed by the landowner, and submitted to the department forester no later than August 15 of the year in which the order of designation will be issued. The department shall deem a management plan completed if all the following apply:

a. The management plan packet was submitted to the department as part of the managed forest law petition for review on or before July 1.

b. The management plan includes all requirements under subs. (1) to (3).

c. The department has approved the management plan.

d. The owner has signed the management plan.

3. Failure to return the signed and approved management plan no later than August 15 or a later date agreed to by the department will result in a denial of the petition.

SECTION 7. NR 46.18(7)(c) is repealed.

SECTION 8. NR 46.18(8)(b) is amended to read:

NR 46.18(8)(b) On July 2 of each year the statewide plan preparation fee shall be calculated. The plan preparation fee shall consist of a ~~base rate plus a~~ cost per acre rate. The rates shall be calculated by averaging the cost preparation data submitted by independent certified plan writers under s. NR 46.165 (4) (f) from the 12-month period ending on the prior May 31.

SECTION 9. NR 46.30 (1) (e) is amended to read:

NR 46.30 (1) (e) Except as provided in par. (f), a reduction of 30% of the stumpage value for severance and yield tax, as listed under ~~sub. (2) the current stumpage value schedule~~, shall be made for those species salvaged as a result of catastrophic loss. In order to be eligible for this reduction, the catastrophic loss must directly involve 30% of the merchantable timber on 5 contiguous acres or more and must result in a reduction of 30% or more in stumpage value to the owner as certified by the owner on forms provided and verified by department appraisal. The owner or representative may be required to accompany the department field inspector in the determination of eligibility for catastrophic reduction.

SECTION 10. NR 46.30 (1)(f) is amended to read:

NR 46.30 (1)(f) A reduction of 70% of the stumpage value for severance and yield tax, as listed under ~~sub. (2) the current stumpage value schedule~~, shall be made for those species salvaged as a result of catastrophic loss caused by fire mortality. In order to be eligible for this reduction, the catastrophic loss must directly involve 30% of the merchantable timber on 5 contiguous acres or more and must result in a reduction of 30% or more in stumpage value to the owner as certified by the owner on forms provided and verified by department appraisal. The owner or representative may be required to accompany the department field inspector in the determination of eligibility for catastrophic reduction.

SECTION 11. NR 46.30 (2) is repealed.

SECTION 12. EFFECTIVE DATE. This rule shall take effect on the first day of the month following publication in the Wisconsin administrative register as provided in s. 227.22 (2) (intro), Stats.

SECTION 13. BOARD ADOPTION. This rule was approved and adopted by the State of Wisconsin Natural Resources Board on June 23, 2010.

Dated at Madison, Wisconsin _____.

Assumptions Used in Arriving at Fiscal Estimate

The proposed rule package would make the following changes to clarify and streamline the MFL program:

- Create a process to allow landowners who purchase expiring forest crop law lands within 18 months prior to the end of the forest crop law expiration the opportunity to apply for the July 1 petition deadline or later for good cause to be considered for designation effective the following January 1.
- Clarify the requirements for additions to existing managed forest law lands.
- Amend the certified plan writer reporting requirements for plan preparation costs and requirements for making an offer to landowners for management plan writing services.
- Amend the Department billing requirements when invoicing landowners for plan preparation fees.
- Amend the minimum medium density stocking requirements for management of plantations from 600 seedlings per acre to 400 seedlings per acre.

All of these provisions have no state or local fiscal impact.
