1. Basis and purpose of the proposed rule.

The objective of the rule is to revise the fees the Department charges to review plans and to inspect public swimming pools and water attraction to reflect the cost of providing the services.

2. How the proposed rule advances relevant statutory goals or purposes.

Section 101.19, Stats., requires the Department to fix and collect fees by rule which shall, as closely a possible, equal the cost of providing services such as plan examination, inspections, and permits to operate.

3. Changes to the rule analysis or fiscal estimate that was prepared for public hearing.

No substantial changes were made to the rule analysis or the fiscal estimate.

Assumptions Used in Arriving at Fiscal Estimate

The general increases for the plan review and inspection fees for public swimming pools and water attractions are similar to those proposed in 2008. It is estimated that the plan review and inspection fee adjustments will result in an estimated annual increase in revenues of \$25,000.

One fee reduction is occurring in light of the implementation of the federal Virginia Graeme Baker Pool and Spa Safety Act which necessitates most existing public swimming pools and water attractions to undergo physical modifications to reduce the risk of entrapment at suction outlets. The plan review and inspection fees for these types of pool and water attraction modifications are reduced by 50 to 67%. The reduction will save pool and water attraction owners \$200 to \$650 per plan submittal. The department estimates there are still approximately 1,900 existing public swimming pools and water attractions in Wisconsin needing to submit plans for the necessary federally mandated modifications. The department estimates that 90% of the future plan submittals, 1,710, will fall under the category involving department inspections and 10% of the future plan submittals, 190, will fall under the category where the department does not conduct the inspections. Under this assumption, the department will not realize \$703,000 in plan review and inspection revenue from these plan submittals under the rules.

The Department believes that the rules will have a minimal direct impact on small business in that most businesses would utilize the plan review and inspection services on an infrequent basis and are typically a one time occurrence. These types of fees would not be significant to the overall operation of the business in comparison to overall expenses.

FINAL REGULATORY FLEXIBILITY ANALYSIS

Department of Commerce

CLEARINGHOUSE RULE NO.: 09-116

RULE NO.: Comm 2.68

RELATING TO: Public Swimming and Water Attraction Plan Review and Inspection Fees

Final regulatory flexibility analysis not required. (Statement of determination required.)

Pursuant to s. 227.19 (3m), Stats., the department has determined that the proposed rules will not have a significant economic impact on a substantial number of small businesses.

1. Reason for including or failing to include the following methods for reducing impact of the rule on small businesses: Less stringent compliance or reporting requirements; less stringent schedules or deadlines for compliance or reporting requirements; simplification of compliance or reporting requirements; establishment of performance standards to replace design or operational standards; exemption from any or all requirements.
2. Issues raised by small businesses during hearings, changes in proposed rules as a result of comments by small businesses and reasons for rejecting any alternatives suggested by small businesses.

Comments

[NOTE: All citations to "Manual" in the comments below are to the Administrative Rules Procedures Manual, prepared by the Legislative Reference Bureau and the Legislative Council Staff, dated September 2008.]

2. Form, Style and Placement in Administrative Code

a. In its fiscal estimate and SECTION 9 of the rule analysis, the department should explain the calculations used to estimate the fiscal effect of the proposed rule. How did the department reach its conclusions regarding the \$25,000 increase and \$703,000 decrease in plan review and inspection revenue expected under the proposed rule?

b. In s. Comm 2.68 (3) (a) 2., the phrase "Additional installation inspections, beyond one" is ambiguous. Does "beyond one" refer to the initial inspection, or to the first additional (in other words, second) inspection? The department should clarify its intent regarding which inspections are assessed fees in accordance with s. Comm 2.04 (2).

c. In SECTION 2 of the proposed rule, it is unclear why the department refers to "Table 2.31-1" above its amendment to s. Comm 2.68 (3) (d).

d. In SECTION 2 of the proposed rule, the department refers to s. Comm 2.68 (3) (d) in the treatment clause; however it refers to s. Comm 2.68 (1) (d) in the text of the rule. The correct reference appears to be s. Comm 2.68 (3) (d).

In Tables 2.68-1 and 2.68-2, the department does not need to underline "Type of Pool, Water Attraction or Equipment." This phrase exists in the current tables.

4. Adequacy of References to Related Statutes, Rules and Forms

In its fiscal estimate and SECTION 9 of the rule analysis, the department should include a description of the statutory obligation to establish fees equal to the cost of providing services, as described in SECTION 8 of the rule analysis.

Rule No.: Comm 2.68

Relating to: Public Swimming Pool and Water

Inspection Fees

Clearinghouse Rule No.: 09-116

The Wisconsin Department of Commerce adopts an order to amend Comm 2.68 (3) (d), Table 2.68-1 and Tables 2.68-2; and to create Comm 2.68 (3) (a) relating to fees for plan review and inspection of public swimming pools and water attractions and affecting small business.

Analysis of Rule

1. Statutes Interpreted

Statutes Interpreted: ss. 101.19 and 145.26, Stats.

2. Statutory Authority

Statutory Authority: ss. 101.19 and 145.26, Stats.

3. Related Statute or Rule

Statutes: none

Administrative Rules: Chapter Comm 90

4. Explanation of Agency Authority

Chapters 101 and 145, Stats., grant the department general authority for the purpose of protecting public health, safety and welfare by establishing standards and regulatory oversight programs for the construction and maintenance of buildings, structures and dwellings, public swimming pools and water attractions. These programs are administered by the Safety and Buildings Division. Sections 101.19 and 145.26, Stats., grant the department authority to promulgate rules to fix and collect fees that reflect the cost of administering the public swimming pool and water attraction program.

5. Summary of Proposed Rules

The rules adjust the plan review and inspection fees for public swimming pools and water attractions. The rules also create a separate plan review and inspection fee for modifications to existing swimming pools and water attractions that are necessary in order to comply with the federal Virginia Graeme Baker Pool and Spa Safety Act. The federal Virginia Graeme Baker Pool and Spa Safety Act requires most existing public swimming pools and water attractions to undergo physical modifications to reduce the risk of entrapment at suction outlets.

6. Summary of, and Comparison with, Existing or Proposed Federal Regulations

An internet-based search of the code of federal regulations and the federal register did not identify any federal requirements relating to public swimming pool and water attraction plan review or inspection fees. The federal Consumer Product Safety Commission's implementation of the Virginia Graeme Baker Pool and Spa Safety Act necessitates the modification of existing pools to address entrapment at suction outlets.

7. Comparison with Rules in Adjacent States

An Internet-based search for the states of Illinois, Iowa, Michigan and Minnesota found the following:

Illinois: The Illinois Department of Public Health provides for the inspection and licensing of all public swimming pools, spas, waterslides, wading pools, and bathing beaches. Effective February 2003, the Department reviews all plans and specifications before construction can begin. The state's permit for the construction, development, major alteration or installation of each swimming facility is \$50, and must accompany any application.

Iowa: The Iowa Department of Public Health Swimming Pool Program regulates the construction and reconstruction of swimming pools and spas. Plan Review fees range from \$165 for swimming pools less than 500 square feet to \$825 for pools 4000 square feet or greater which may include a water slide. Water slides with a dedicated plunge pool have a plan review fee of \$550 with a fee of \$165 for each additional water slide. The plan review fees for spas range from \$165 for a spa less than 500 square feet to \$385 for a spa of 1000 square feet or greater. The reconstruction plan review fee is \$250 for each swimming pool, spa, or bathhouse altered in the reconstruction.

Michigan: The Michigan Department of Environmental Quality Water Bureau regulates public swimming pool construction permits and licensing fees, which range from \$596 for a new pool 500 square feet or less to \$1,951 for a new pool more than 4000 square feet in area. The permit fee for modification of an existing pool is \$298.

Minnesota: The Minnesota Department of Health regulates swimming pool and spa pool plan review. Plan review and inspection fees are \$800 each for swimming pools, wading pools, therapy pools, spray decks and interactive water features; \$500 each for spa pools and a request for variance; \$400 for slides and alterations not altering shape or size; and \$75 for a disinfection system change.

8. Summary of Factual Data and Analytical Methodologies

The changes are necessary in order to bring revenues in line with the cost of providing plan review and inspection services for public swimming pools and water attractions. Under s. 101.19, Stats., the department is statutorily directed to establish and collect fees which should, as closely as possible, equal the cost of providing those services.

Implementation of the federal Virginia Graeme Baker Pool and Spa Safety Act necessitates most existing public swimming pools and water attractions to undergo physical modifications to reduce the risk of entrapment at suction outlets. The department estimates that 3,700 existing pools and water attractions will need to undergo some type of modifications. The current plan review fees reflect the estimated average time and costs to provide the service. For types of pool and attraction modifications necessary to comply with the Virginia Graeme Baker Pool and Spa Safety Act, the department believes that the time and cost to provide the service will be below the averages reflected under the fee structure of section Comm 2.68.

9. Analysis and Supporting Documents used to Determine Effect on Small Business or in Preparation of Economic Impact Report

The general increases for the plan review and inspection fees for public swimming pools and water attractions are similar to those proposed in 2008 and reviewed by the Pool Council. It is estimated that the plan review and inspection fee adjustments will result in an estimated annual increase in revenues of \$25,000.

One fee reduction is occurring in light of the implementation of the federal Virginia Graeme Baker Pool and Spa Safety Act which necessitates most existing public swimming pools and water attractions to undergo physical modifications to reduce the risk of entrapment at suction outlets. The plan review and inspection fees for these types of pool and water attraction modifications are reduced by 50 to 67%. The reduction will save pool and water attraction owners \$200 to \$650 per plan submittal. The department estimates there are still approximately 1,900 existing public swimming pools and water attractions in Wisconsin needing to submit plans for the necessary federally mandated modifications. The department estimates that 90% of the future plan submittals, 1,710, will fall under the category involving department inspections and 10% of the future plan submittals, 190, will fall under the category where the department does not conduct the inspections. Under this assumption, the department will not realize \$703,000 in plan review and inspection revenue from these plan submittals under the current rules.

The Department believes that the rules will have a minimal direct impact on small business in that most businesses would utilize the plan review and inspection services on an infrequent basis and are typically a one time occurrence. These types of fees would not be significant to the overall operation of the business in comparison to overall expenses.

An economic impact report has not been required pursuant to s. 227.137, Stats.

SECTION 1. Comm 2.68 (3) (a) is created to read:

Comm 2.68 (3) (a) Virginia Graeme Baker alterations. 1. Fees for the review and approval of modifications to existing pools involving circulation systems or submerged suction outlets for the sole purpose of complying with the federal Virginia Graeme Baker Consumer Product Safety Commission rules shall be one of the following:

- a. Three hundred fifty dollars, if the modification inspection is performed by department staff.
- b. Two hundred dollars, if the modification inspection is not performed by department staff.

2. Modification inspections, beyond the initial modification inspection, performed by department staff for modifications to existing pools involving circulation systems or submerged suction outlets for the sole purpose of complying with the federal Virginia Graeme Baker Consumer Product Safety Commission rules shall be assessed in accordance with s. Comm 2.04 (2).

SECTION 2. Comm 2.68 (3) (d), Table 2.68-1 and Tables 2.68-2 are amended to read:

Comm 2.68 Public swimming pool and water attraction plan review and inspection fees.
(3) (d) Reinspection fee. A fee of ~~\$225.00~~ 300.00 may be assessed for a second or subsequent final inspection where the initial final inspection is scheduled and partially conducted by the inspector, and the pool installation is found to be incomplete.
