Prepared Statement to the Senate Committee on Children and Families and Workforce
Development:

I have always valued the opportunity to serve. I feel that each citizen should find some way to contribute to making our world a better place to live. This belief was nurtured as a Girl Scout who learned the value of serving and the importance of community. I strengthened and lived this value as a public school teacher, and later, as an advocate for public education.

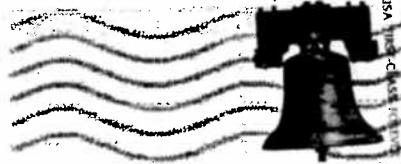

As a single working female, I found it difficult balancing making a living and volunteering to the extent that I would have liked. I am in the fortunate position of taking some professional time off to ensure the success of my new blended family, so I promised myself that I would use this time, as well, to volunteer (and train for the Birkiel).

I am excited and honored to be offered the opportunity to serve on a state committee as a public member. I believe that my professional and personal experience working for and consulting with boards, serving on boards, and having a Masters in Organizational Development will benefit the examining board's work. As a former educator who worked in collaboration with social workers and professional counselors, I value the skills that these qualified professionals employ to help families and children work to heal themselves and build stronger families. If serving as a public member on the examining board is the small way that I can contribute to ensuring the quality of these professionals, and thus my larger community, I would be honored to serve.

Thank you for the committee's consideration of my candidacy.
