

Budget Index Report

How to Use This Guide to the 2011-2011 Governor's Executive Budget Bills 2011 Assembly Bill 40 and 2011 Senate Bill 27

Every budget bill is composed of hundreds of individual bill drafts (component drafts), each dealing with a particular topic or program. This *Budget Index Report* is designed to help you find topics within AB-40/SB-27 and, using the links, connect with the text of the specific budget component draft you are interested in.

The *Budget Index Report* contains a subject index term and a topic line for each component which will help you locate specific information in the budget bill. You can search the report for a word or phrase as you would any other Folio infobase.

In your search results, the first instance will be a link to the LRB number of the component draft. Other instances will be links to both the component draft and to the sections within the budget bill itself.

Remember to search for plurals, *i.e.* a search for business will not find businesses unless you use wild card characters. Also, abbreviations are sometimes found in the *Budget Index Report* — *i.e.* bus. [business]; util. [utility/utilities]
