Mark –

I need an amendment to SB 40 that, consistent with my original drafting instructions below, increases the funding to WTCS for this program. As drafted, the bill requires WTCS to make more in grants but does not increase the appropriation for the program.

Chris –

Not sure if you consider this one ED or WTCS – please pass it on as necessary.

I need a draft that expands funding to WTCS for the Advanced Manufacturing Training Grants program over FY 09-11 by \$400,000 each year of the next biennium. I think the total for the biennium will be \$2.8. Same appropriation line as the 09-11 budget. Let me know if you have questions.

### *Analysis by the Legislative Reference Bureau*

Under current law, the Technical College System Board (board) makes grants to technical college system boards for training in advanced manufacturing skills. Beginning in the 2010–11 school year, the board is required to award at \$2,000,000 annually for such grants. Sen. Lassa:✓

This amendment delays the increase in the appropriation until after the budget is enacted. The delay is necessary because the budget will repeal and recreate the appropriation schedule. If the appropriation increase were to go into effect before enactment of the budget, the increase would be wiped out when the appropriation schedule is repealed and recreated.✓

Another way to accomplish your intent is to amend the budget to make sure that the appropriation schedule includes the amounts you want for the grants.
